SECIES FIRE.

CLIMBING WATERMELON

Below we list some new varieties of special merit which we want tried out by our customers.

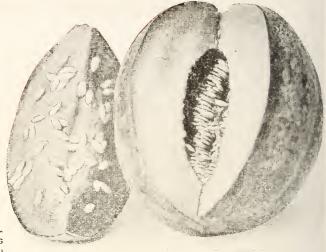

THESE VARIETIES ARE FREE

With an order amounting to 25c you may select 1 pkt.; with a 50c order 3 pkts., while with an order for \$1.00 or more we will send the entire collection of 7 pkts.

The only conditions are that you ask for some on your order and report results on or before Oct. 1, 1915.

CABBAGE.-Stonehead. A great cabbage. Heads of good size, very solid. Will keep until spring. Pkt. 10c; 3 pkts. 29c.

LETTUCE--Tenderheart. A most excellent variety. Produces solid heads, the inner leaves of which are a creamy color, very tender. Pkt. 5c: 3 pkts. 10c.

SPICY MUSKMELON

TENDERHEART

PERFECTION

MUSKMELON-Spicy. Distinct in both appearance and rich sugary favor. Fruits of good size and almost solid, as the seed cavity is very small. Flesh often two inches thick. Pkt. 10c; 3 pkts. 20c.

WATER MELON--Climbing. This is a real water melon, of luscious flavor and can be grown either on a trellis or on the ground. It is a perfect gem and should be tried out by all melon lovers. Pkt, 10c; 3 pkts, 20c.

RADISH--Perfection. Very early and attractive in appearance as the white tip extends nearly half way up the radish. Mild and tender. Pkt. 5c; 3 pkts. 19c.

PEAS—Extra Early Blue Bantam. This grand variety bears abundantly long handsome pods fully as early as Gradus and requires no staking. Quality of these peas cannot be beat. We claim it to be the best extra early dwarf pea. Pkt. 10; 3 pkts. 20c.

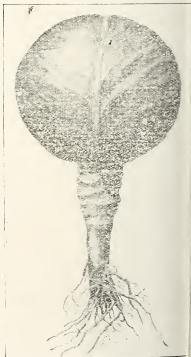

ฐ 9M 4TO---John Baer. Probably the earliest and best Tomato in

We have grown it at our Fairfield Farm and can vouch to the truth of the above statement. Fruits of good size, very smooth of a rich glossy color and often produced ten in a cluster. Seed sold last year for \$1.60 per pkt. Price of seed of our own growing: Pkt. 10c; 3 pkts. 20c.

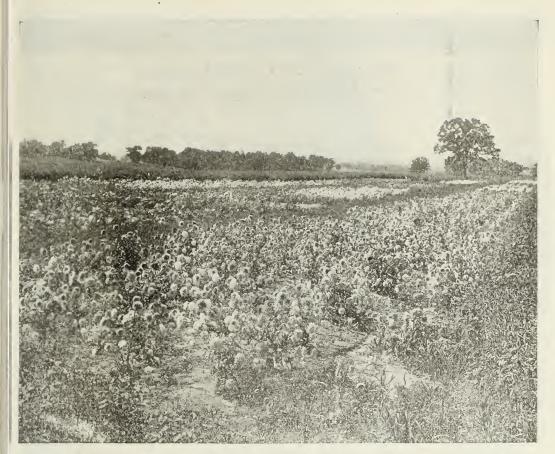

NOT INCLUDED ON ABOVE OFFER ASTERS...IUNG'S GIANT FANCY. See illustration on front cover.

This is probably one of the finest mixtures of giant flowered Asters ever offered. It contains seed of new varieties originated at our Fairfield Farm and includes the most rare and beautiful colors. Flowers five inches across and produced on stems two feet long, are not uncommon. If you wish to grow Asters that will rival chrysanthemums do not fail to order this mixture. Pkt. 10e; 3 pkts. 25c.

GARDENING BOOK FREE. We have issued a book of complete cultural instructions of both vegetable and flowers. A copy will be mailed free with every order if asked for.

When money is sent by Money Order, or Registered Letter.

Free Delivery. We deliver free to any Express or Post Office in the United States, all seed quoted in this catalog by the packet; ounce, quarter-pound, pound, half-pint, pint and quart. On seeds in large quantities purchasers must pay the Freight and Express charges.

25 cents

worth of seeds free is allowed for each \$1.00 sent for seeds in packets and ounces. This premium must be selected in packets and ounces and positively does not apply on orders for half-pints, pints quarts, quarter pounds, pounds, farm seeds, potatoes, special offers or collections.

Warranty. While we use every effort possible in the selection of our seeds, and feel justified in saying that our seeds are as pure as the best, but at the same time, there are causes that are beyond the control of man that lesseds pure and reliable, we sell no seeds with warranty, expressed or implied, further than the amount actually paid for such seeds prove unsatisfactory, should there be just cause for complaint. It must, however, be plain to everyone who gives the matter the ightest thought, that it is to our best interests to send out only such stock as will not only grow but also prove true to name and scription.

Safe Arrival of Package.

We endeavor to secure the safe arrival of package of seeds and bulbs in good condition in every case. If a package is injured or lost, by Mail or Frequently it happens that orders never reach us, or are without a signature or address.

When customers fail to receive their packages within a reasonable time, they should inform us, and at the same me send a copy of their order and any other information necessary to trace the goods.

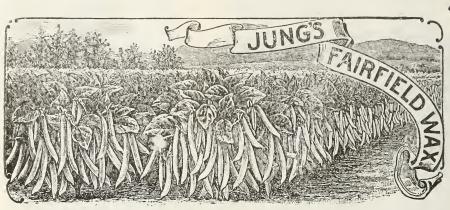

Order Early. It will greatly facilitate shipments if orders are sent early. We aim to send off all orders the same or next day after they are received, but during the busy season this is impossible—hence the adaptive of ordering early.

VEGETABLE AND FLOWER SPECIALTIES FOR 1915.

On the following ten pages we are listing specialties that we know cannot fail to please our customers,

It is our aim to supply our customers with the best of everything and we do not offer any variety that does not have specimerit.

All of these varieties are "first class" and you will make no mistake by giving them a trial.

Jung's Fairfield Wonder Wax Bush Bean.

WITHOUT A DOUBT THE FINMST WAX OR BUTTER BEAN EVER INTRODUCED.

It is with pleasure that we offer our customers this grand new Butter Bean as we are sure it will please the most critical planters. This variety originated on our Fairfield Farm and is by far the finest wax wax bush bean we have ever seen. The bushes are unusually vigorous and free from disease. They grow from fifteen to twenty inches high, have large heavy foliage and bear an immense load of pods which are from six to nine inches long, one-half inch broad, and have absolutely no strings whatever. The color is a rich lemon yellow. If you want the very best Butter Bean of them all try Jung's Fairfield Wonder Wax. Pkt. 10 cts.; pt. 40 cts., postpaid.

New Kidney Wax Bush Bean.

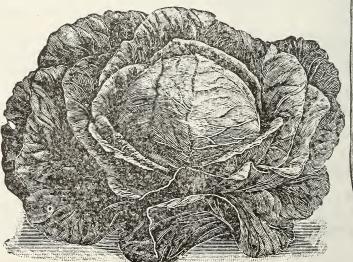

One of the finest flat podded Wax Bush Beans in cultivatioo, A great improvement on Wardwell's Kidney Wax. being more robust and prolific, and having longer pods which are much handsomer and of finer quality. The plants are of erect hush habit, reaching 18 to 20 inches in height. Their thick foliage is free from blight, while the pods are free from rust. The fleshy pods are flattened in form, six to seven inches long, one-half inch broad, and three-eights of an inch thick; the color is a rich lemon yellow. The pods are remarkable for their meatiness, fine flavor and absolute freedom frem strings. The pods hang in rich clusters from the vines, making picking quite eesy. Plants of this variety have been grown on our Fairfield Farm bearing forty pods each. It is without any doubt the best variety to plant for either the home or market garden. Pkt. 10 cts.; † pt. 20 cts.; pt. 30 cts.; qt. 50 qts., postpaid.

Copenhagen Market Cabbage.

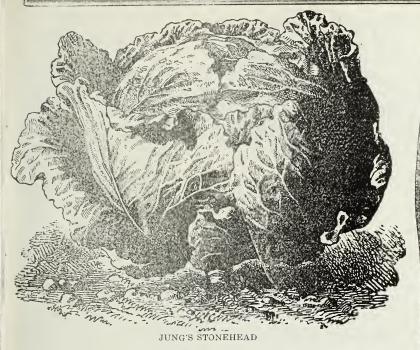

An extreme-early Cabbage of unusual merit. It matures as early as Wakefield and will give a much heavier yield per acre htan that popular variety.

acre htan that popular variety. The plant is short-stemmed the heads being produced on the ground level. The leaves are light green, rather small, saucer-shaped, and always tightly folded. The splendid solid heads weigh as much as eight pounds each, are of exceptional fine flavor, and show no signs of cracking. The type is thoroughly fixed, the heads maturing all at the same time, this is a great consideration to market gardeners, entailing less labor in harvesting the crop and allows the ground to be cleared at the first cutting.

This Cabbage has come to stay and will give satisfaction. Pkt. 10 cts. oz. 50 cts.; 1b. \$1.75., postpaid.

COPENHAGEN MARKET

Jung's Stonehead, or Danish Roundhead Cabbage.

An earlier shorter stemmed type of the famous Danish Ballhead. It is slightly larger than Danish Ballhead and produces more weight per acre. The foliage is lighter in color; the handsome dark heads are beautifully white when trimmed. The heads are produced about two weeks earlier and while perfectly round in form are not so deep through. It is shorter stemmed than even the Short-Stemmed Ballhead which is sometimes sold as Danish Roundhead. The magnificent heads are splendid keepers and always bring the highest prices on market. Pkt. 10 cts.; oz. 20 cts.; † lb. 50 cts., postpaid.

Golden Cream Sweet Corn.

A new early variety with long pointed kernels like Country Gentlemen, which are closely set on a very slender cob. The flavor is remarkably sweet. When at eating stage the ears are cream colored but are decidedly yellow when cooked. It is good enough to eat raw. The stalks hear from two to four fair sized ears cook.

fair sized ears each.
Pkt. 5 cts.; ½ pt. 15
cts.; pt. 25 cts.; qt.
45 cts., postpaid.

JUNG'S FAIRFIELD GIANT ½ natural size

Jung's Fairfield Giant Cucumber.

The darkest green and most nearly seedless Cucumber in cul-The darket green and most nearly seedless Cucumber in cultivation. The vines are unusually vigorous in growth and produce an enormous crop of handsome fruit. They are smooth, of a very deep green color, and grow from fifteen to twenty inches in length, being one of the largest Cucumbers grown. When the fruits are from eight to ten inches in length, or just the right size from light to the inches in length, or just the right size fruits are from eight to ten inches in length, or just the right size for slicing, they are practically solid, there being hardly a trace of seed to be found. The pure white flesh is very firm, sweet, crisp and of the finest flavor. As shown in the illustration the fruits are very long and slim which together with their deep green co'or will make them bring the top prices on all markets. Pkt. 10 cts.; will make them bring the top prices on all markets. oz. 20 cts.; ½ lb. 60 cts., postpaid.

DANVERS CARROT.

A handsome half-long, cylindrical, stump-rooted Carrot of good size and of a rich, dark orange color; it grows to a large size, is smooth, and the flesh very close in texture with very little core and a small tapering tap-root. It is a good Carrot for all soils: under good cultivation it has yielded 25 to 30 tons per acre. It is very easily harvested. Pkt. 5 cts.; oz. 10 cts.; \(\frac{1}{4}\) lb. 25 cts.

GOLDEN CREAM

DANVERS

GROUND CHERRY IC

The introducer says: "It is very good for canning, preserving and pies. Dried in sugar as raisins or figs, they are excellent; handsome yellow color and will keep until January. Produces fruit of strawberry flavor in great abundance, from 1 to 2 inches in diameter; highly prized." Per pkt. 5c.; 3 pkts 10c.

A splendid, novelty, very striking in color and a most wonderful yielder; of bright orange colored fruits about the size of an orange, Vines grow some what smaller thanamusk melon. For

than amusk melon. For pkt. 5c.; 3 pkts. 10c., postpaid.

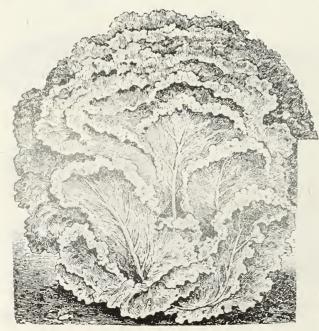

GOLDEN BANTAM SWEET CORN.

This is without any exceptions the SWEETEST AND MOST TENDER SWEET CORN ON THE MARKET. It is not only extra early, but also very hardy. Althouge the grain in its young and tender state is sweet beyond comparison, the dry seed is quite solid permitting of the earliest planting. The stalks grow from three to four feet high and produce one to two good ears on each stalk. The ears are from five to seven inches long. The color of the grains is a bright golden yellow. In flavor it is exceptionally rich and sugary. In quality and productiveness it leads all varieties. Pkt. 5 cts.; ½ pt. 15 cts.; pt. 25 cts. qt. 45 cts., postpaid.

JUNG'S ALL CREAM LETTUCE.

This remarkable Lettuce does not head, but makes a large locse bunch of leaves of superlative fine quality. The leaves grow upright, the upper part of the outer leaves turning outward very gracefully, and are handsomely wrinkled. The inside leaves are almost white and wonderfully crisp and tender. It grows very quickly, is ready for use early, and remains for weeks. It is the cream of all sorts and should be in every garden. Pkt. 5 cts.: oz. 10 cts.; † lb. 25 cts., postpaid.

When comparing prices remember that WE prepay postage on all seeds by the packet, ounce, quarter-pound, pound, half-pint, pint and quart.

JUNG'S ALL CREAM

Extra Early Spanish Peanut.

This splendid variety is very desirable because so ear and prolific. It grows perfectly erect. Planted in Apthey ripen in August, and if planted as late as July was mature a crop before frost. It is in every particular very satisfactory variety to grow. Produces very few in perfect nuts. Can be grown in the North. Pkt. 5 cen pint 20 cents: quart 35 cents. By express, quart 25 cen

TOM WATSON MELON. WATER

EST QUAL!TY. BEST SHAPE. BEST SHIFPER. BEST SIZE. BEST APPEARANCE.

The Tom Watson is on extra large melon of attractive appearance, uniform in shape and quality.

The luscious crimson flesh is of attractive appearance, uniform in shape and quality. The luscious crimson flesh is "sweet as honey", melting and of superb flavor. The average melon weighs from 35 to 40 pounds and measure about 20 inches in length and 12 inches in diameter. It is very prolific, producing in greatest abundance the delicious fruits. The dark green rind is tough but thin and easily withstands shipment to far distant markets. The heart is large with no sign of core. Pkt. 5 cts.: oz. 10 cts.: ½ lb. 25 cts.

New Fordhook Musk Melon.

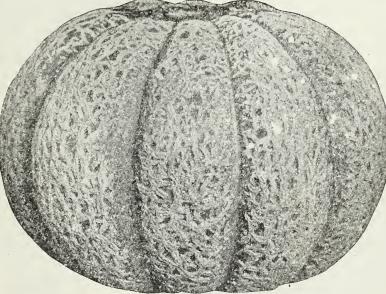

The finest flavored and sweetest Musk Melon in cultivation. Fully equal to Emerald Gem in flavor. So firm Emeraid Gem in havor, So in in the rough netted skin, and so solid the thick salmon flesh, that the melons carry to market even better then Emerald Gem. The flesh is very thick, for attractive den salmon. ket even better then Emerald Gem. The flesh is very thick of an attractive deep-salmon color and surpassingly sweet to the very rind. The flesh is not only very thick, but also extremely solid. The rind, although thin, is unusually firm, so that the fruits carry well to market. It is most vigorous in growth, very early and extremely prolific Each vine sets from five to nine melons immediately around the stem; frequently the fruits touch one frequently the fruits touch one another. The melons are very even in size, weighing from ½ even in size, weigning from 2 to two pounds each. For hand-some appearance, extreme ear-liness, great productiveness and superb quality it is unexcelled. to give New Fordhook a trial. P! oz. 20 cts.: ½ lb. 40 cts., postpaid.

Henderson's Bush MUSK MELON.

THE MOST REMARKABLE SEED NOVELTY OF THE AGE. PERMITS TWICE AS MANY MELONS TO BE GROWN ON THE SAME SPACE AS FROM VINE VARIETIES.

The fruits are of the popular "Jenny Lind" type but larger, averaging five inches in diameter, they vary somewhat in shape from

SEED

EARLIESTWAYAHEAD

Fordhook Early WATER MELON

This is the only extra early Water Melon we have that is of good size and quality. From seed planted May 10 large ripe melons were picked the last day of July. The fruits are of large size, rather short and blocky in form, with large diameters. Flesh bright red, crisp, sweet and of splendid quality. The quality continues to improve after ripening. The heart is large, there is little or no seed cavity and very few seeds—all solid flesh the quality of which is sustained clear to the rind. The vines are of strong vigorous growth, setting large melons in good numbers. Skin dark green, occasionally with faint stripes of a light green. A good shipper. Pkt. 5 cts.; oz. 10 cts.; \(\frac{1}{2}\) lb. 25 cts.

THE LARGEST ONION GROWN. For home use or exhibition purposes purposes, Ailsa Craig combines all the necessary qualities for the ideal Onion.

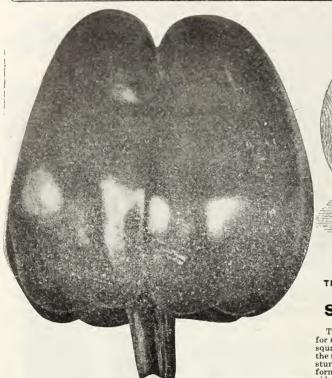

necessary qualities for the ideal Onion-For perfection of form, size and weight it is unrivaled. As shown in the illustration it is a handsome globe shape, the outer skin being a beautiful straw color. The flesh is snow-white, delicious in flavor, in fact, equal in every respect to the popular Spanish Onions. The onions grow to a very large size, frequently weighing $2\frac{1}{2}$ to three pounds each. For best results the seed should be sown inside and the onions transplanted to rich soil when the tops are size of quills. The attractive appearance of Ailsa Craig, together with its wonderfully are size of quills. The attractive appearance of Ailsa Craig, together with its wonderfully delightful flavor, render it a most desirable variety, and commands a ready sale on the markets. Give this Onion a place in your garden. Pkt. 10 cts.; oz. 20 cts.: t lb. 75 cts.

ARISTCCRAT

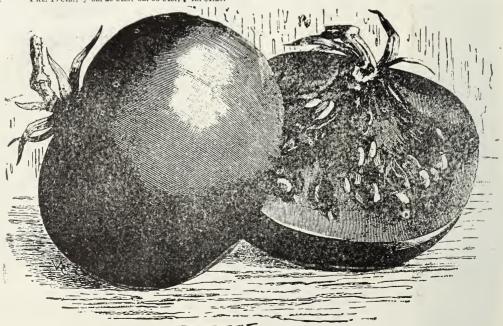

The sweetest and best pie pumpkin grown. For description and price see page 31.

Sweet Upright PEPPER.

The best Pepper for the family garden and unequaled for market. It produces fine large fruits of nearly square or blocky form, with exceptionally thick flesh of the mildest and sweetest flavor. The plants are of sturdy erect growth; fruits are borne stiffly erect, and form at each of the branches; they are very broad, divided into four lobes, and when fully ripe are deeply

indented at the blossom end. The color when ripe is rich glowing scarlet both in the thin tender skin and in the unusually thick The flesh is as crisp, mild and sweet as an apple.

Pkt. 1) cts.; ½ oz. 20 cts.; oz. 35 cts.; ‡ lb. \$1.20. It ripens early, the fruits are large, weighing from six to seven ounces each.

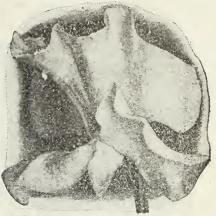

Jung's Fairfield First TOMATO. THE SMOOTHEST AND FINEST FLAVORED EXTRA EARLY TOMATO. This variety has been carefully bred for extreme earliness, productiveness, and smoothness of fruit. Fruits are of good size;

This variety has been carefully bred for extreme earliness, productiveness, and smoothness of fruit. Fruits are of good size; smooth, and borne in clusters. It is a very heavy cropper. Although one of the first to ripen, the vines continue to bear until frost; the size and smoothness of the truits is maintained until the end of the season. The color is an intense velvety scarlet, fruits are almost globe shaped making it a splendid variety for slicing. The fruits are remarkably solid and firm; flesh is thick and heavy, of fine flavor, and contains but few seeds. Vines are strong and healthy growers. Pkt. 10 cts.; oz. 40 cts.; \(\frac{1}{2}\) lb. \(\frac{1}{2}\) 130.

UNRIVALED GARDEN SEEDS.

In the following list you will find only such varieties as have been thoroughly tested and found to be of special merit. All of our seeds were grown from the finest select stocks and for quality and productiveness are unexcelled by any others. WE HANDLE ONLY THE VERY BEST SEEDS, and QUALITY rather than price is our first aim.

ASPARAGUS

This is an excellent variety. The stalks are of a green color, almost an inch in diameter from the bottom completely to the tip. They are of quick growth and free from woody fibre. We offer both seed and roots. Price of seed: Fkt., 5 ets.; oz., 10 ets.; ¼ lb., 25 ets. Price two year old roots, 25 ets. per dozen, postpaid. By freight or express, 80 ets. per 100.

BUSH BEANS

Jung's Unrivaled

Our Seed Beans are extra fine! They were grown on the Fairfield Seed Farm; were thoroughly rogued, hand picked, and are worth much more than the less carefully selected strains as are usually sold.

PENCIL POD WAX

Pencil Pod Black Wax

We consider this one of the best Wax Beans yet introduced. It is very productive, and of most excelent flavor. The pods are long, straight and round like a pencil, fleshy and of a bright yellow color; tender, brittle and absolutely stringless. The plants are of true bush growth. 15 inches high, with abundant foliage. The magnificent pods are from 5 to 7 inches long. Pkt., 5 cts.; ½ pt., 15 cts.; pt., 25 cts.; qt., 40 cts.

Stringless Green Pod

This variety combines the following essential points: Extreme earliness, being the first to produce pods, unusual hardiness and great productiveness. The pods are from five to six inches long, very round, of a rich green color and entirely stringless even when matured. They are tender, brittle and of the finest flavor. It is without any exceptions the finest green podded bean in cultivation. Pkt., 5 cts.; ½ pt., 15 cts.; pt., 25 cts.; qt., 50 cts.

Profusion Wax

The leaves of this bean distinguish themselves from other varieties by their beautiful willowy shape. It is very hardy, having withstood frosts which seriously checked other varieties. The bushes are literally covered with the fine transparent yellow pods which are from four to five inches long, remarkably brittle, as it has no strings whatever. It is sure to make a reputation for itself either in the home or market garden. Pkt., 5 cts.; ½ pt., 15 cts.; pt., 25 cts.; qt. 40 cts., postpaid.

Brittle Wax BUSH BEAN

The earliest of all Wax Beans. Of such excellent quality it might well be termed "best of all." The plants are very hardy and vigorous. of true bush growth, about fifteen inches high and heavily laden with the long, straight, round and very solid pods from five to seven inches long. The pods are of a rich golden color, very tender and entirely free from strings at all stages of its growth. It will stand longer than any other bean without becoming hard. The pods are unexcelled for snap-shorts, while having white seeds showing only a small black dot at the eye. Any pods allowed to ripen will be readily saleable as winter shell beans. Include this great bean in your order. Pkt., 10 cts.; 1 pt., 20 cts.; pt., 30 cts.; qt., 50 cts., postpaid.

Currie's Rust Proof Go den Wax

One of the Earliest and Most Prolifie Wax Bush Beans.

The bushes are strong. vigorous growers and bear an immense load of long, flat meaty pods, which are of the most handsome apof the most nanusome appearance. Not only does this variety possess the merit of being rust-proof but it is also extra early. The pods are exceedingly crisp and tender and of a most delicious flavor. Pkt., 5 cfs.; ½ pt., 15 cfs.; pt., 25 cfs.; apt., 26 do cfs., nost, appearance of the pearance of the pearance of the possession of the pearance of the possession of the pearance of 5 cts.; ½ pt., 15 cts.; pt., 25 cts.; qt., 40 cts., post-

CURRIE'S RUST-PROOF WAX

WONDER BUSH LIMA BEAN

We have grown this strain for four years and can truthfully say that it is the very best "Bush Lima Bean." It is a great improvement on Burpee's Bush Lima. While the bushes are fully as productive, the pods are borne more at the center of the plant. This is a great advantage, as the pods are held up from the ground. The bushes grow eighteen to twenty inches high, requiring no poles or stakes whatever. The pods are of truly mammoth size and contain from three to four large beans each. There is nothing quite so delicious in the vegetable line as nice fresh Lima Beans. Pkt., 10 cts.; ½ pi., 20 cts.; pt., 30 cts.; qt., 50 cts.

WONDER BUSH LIMA

Swiss Chard

LUCULTUS.

Plants grow two feet high and consist when fully developed of about a dozen creamy white, attractively curled leaves. These leaves are carried on broad, thick stalks about 12 inches long. The leaves may be cooked in the same manner as Spin-ach. Pkt., 5 cts.; oz., 10 cts.

14

POLE BEANS

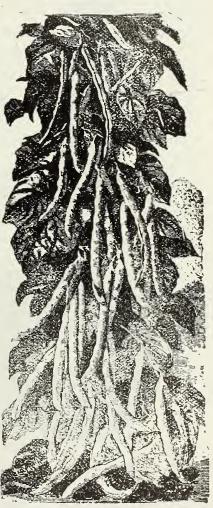

ROLIFIC GREEN PODDED

Kentucky Wonder Wax

The merits of the old Kentucky Wonder Pole Bean are well known. This variety has all its superb qualities with the addition of a beautiful transparent yellow pod. It is a rampant grower, one plant filling a pole with vines densely loaded with almost a solid mass of pods from bottom to top. The pods are very large, being from 8 to 10 inches long, exceedingly tender and very fleshy. The pods are so plump and fleshy that frequently they are of greater thickness than width. Deliciously rich and buttery when cooked. Pkt., 10 cts.; ½ pt., 20 cts.; pt., 30 cts.; qt., 50 cts.

Prolific Green Podded

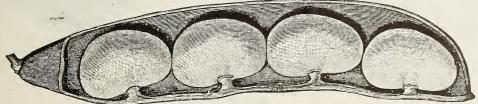

The best green podded Pole Bean in cultivation. It earlier than most other varieties and covers a lenger seasen of productiveness. The vines are vigerous growers, being leaded with peds from summer until frest. It is a very sure cropper, even in unfavorable seasons producing large crops. The pods, borne in clusters, average 6 to 8 inches in length, are uniformly straight, of a dark rich green color, and so meaty as to be nearly saddlebacked. The pods are entirely stringless, very tender and sweet and of mild flavor. The dry beans are of a pearly whiteness. Pkt., 5 cts.; ½ pt., 15 cts.; pt., 25 cts.; qt., 40 cts.

KENTUCKY WONDER WAX

POLE LIMA BEAN.—Henderson's Early Leviathan

This is the very earliest. It will not only give pods earlier than any other strain, but it is also much more productive, both early and throughout the season. It is a strong grower, clinging well to the poles, and is a sure cropper. The pods differ from those of other early Pole Limas in being straighter and longer. The pods hang out from the foliage in large clusters and contain three to four and sometimes five large beans to a pod. It bears until frost, and a small patch will supply a family. Pkt., 10 cts.; ½ pt., 20 cts.; pt., 30 cts.; qt., 50 cts. It bears until ets., postpaid.

sweet, never

making it a quality and reached thei

BRUSSELS SPROUTS

LONG ISLAND IMPROVED. The sprouts resemble miniature cabbages growing closely on the stalk of the plant. They are more tender and delicious than any cabbage. Hard frosts do not injure spreats but improve them, and they are left in the garden until desired for cooking. Strip off the outer covering of the Sprouts and cook them whole. They are a delicacy not surpassed by the finest cauliflower. Pkt., 5 cts.; oz., 20 cts.

BORECOLE, or KALE

LWARF GERMAN. Useful for furnishing greens or boiling during the early fall, winter and spring months. The leaves are very curly, bright green, tender and delicate in flavor. The plants are hardy and the quality is improved by freezing. Pkt., 5 ets.; oz., 10 cts.

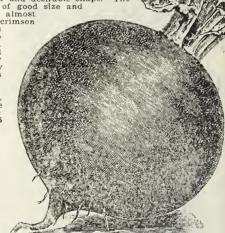

GARDEN BEETS

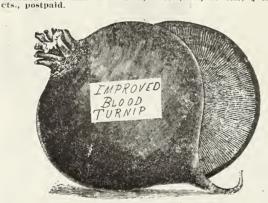

Early Model

Our Packets of Beets each contain one-quarter ounce of seed.
This splendid variety has attained perfection for table use. It is extremely early, of perfect globe shape and finest quality. It is a fine selection of blood red beet, extremely smooth and of symmetrical growth, fine rich color and desirable shape. The roots of Early Model are of good size and run uniformly perfect, almost round, with small dark crimson colored leaves and a slim tap poot. It makes a rapid growth and matures very

matures very early. In quality and color it is peerless; very fine

thet full size. Pkt., 5 cts.; oz., 10 cts.; 1 lb., 35

Improved Blood Turnip Beet

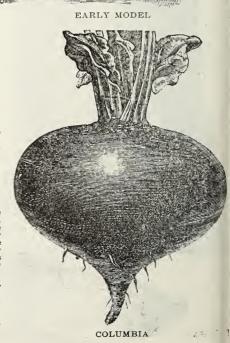

This is an improved strain of the popular Blood Turnip. It is very early, of perfect globe shape and free from side roots. The flesh is a deep red color, fine grained, sweet and of a dark color when cooked. Tops are small and of uniform growth, the leaves, stems and venings being a dark red.

It grows quickly and is of fine quality. Excellent for sumener, fall or winter use. Pkt., 5 cts.; oz., 10 cts.; ½ lb., 30 cts.

Columbia

An excellent early variety for all purposes. The roots are always smooth, from four to five inches in diameter, and of a neat turnip shape. The flesh is a deep red color and of fine quality, remaining tender until the roots have reached ther full size. The foliage is small and of a rich bronze color. The roots can be used early in the season, when only partially grown, being ready for use soon after the Extra Early sorts and is of finer quality. Pkt., 5 cts.; oz., 10 cts.; 1 lb., 30 cts., postpaid.

Don't forget that we prepay the postage on all seeds by the packet, ounce, quarter pound, pound, half pint, pint and quart. Remember this when comparing prices.

EXTRA EARLY EXPRESS

Mangels &

Mammoth Long Red

The best mangel for deep soil; large size; wonderfully productive and of superior quality. Specimens of this variety have been produced weighing 50 pounds. Oz., 5 cts.; I be., 20 cts.; lb., 50 cts., postpaid.

Golden Tankard

A smooth yellow fleshed mangel; the roots are of large diameter, tapering quickly at the bottom, which is quite broad, with only a small tap-root. It grows largely above the soil and is easily harvested. It yields an enormous bulk on good soil, and can be on good soil, and can be closely grown in rows.

No root crop

better is а paying vestment for farmers ers to grow mangels. Oz., 5 cts.; 1 lb., 20 cts.; lb., 50 cts.

MAMMOTH LONG RED

CABBAGE

The Cabbage seed we are offering was grown with exceptional care. The plants were grown from selected stock and the heads were all carefully inspected before being set out. Our packets of Cabbage each contain seed enough to produce 500 plants.

Extra Early Express

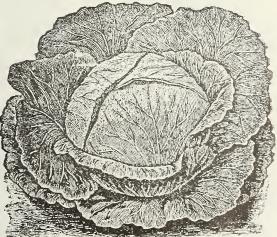

Early Jersey Wakefield JUNG'S SPECIAL STOCK.

JUNG'S SPECIAL STOCK.

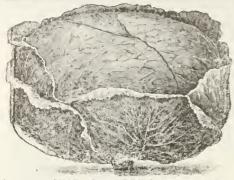

The standard pointed-headed early cabbage throughout the U. S. The heads are uniformly hard and solid. They are pyramidal in form generally pointed at the end, with but few outside leaves. The outside leaves are unusually thick and heavy, and it is thereby enabled to stand more cold weather without injury when carried through the winter. Having but few outside leaves it may be planted close, so that more heads can be grown to the acre than with other sorts. It is exceedingly tender, fine grained and as a cropper no early cabbage can approach it. Size is ideal for marketing. Pkt., 5 cts.; oz., 20 cts.; 1 lb., 60 cts.

All Head Early

This variety has proved itself to be adaptable to a wide range of both soil and climate, and is well worthy of recognition as a standard American sort. It is the earliest of all large cabbage and considerably larger than any other early summer cabbage. The deep flat heads are remarkably solid and the most uniform in color, shape and size of any variety. Good quality and tenderness are marked features. It is suitable for growth in spring and early summer, or for use as a winter sort. The hard heads grow so free from spreading leaves that fully one thousand more heads than usual with large cabbage can be grown to the acre. Seed sown in July, and plants set in August, will produce good heads for wintering. It is a money maker for gardeners. Pkt., 5 cts.; oz., 20 cts.; 1 lb., 60 cts., postpaid.

ALL HEAD EARLY

SHORT STEM DRUMHEAD

Danish Ballhead

A GRAND HARD HEADED CABBAGE.

This type of winter cabbage has become very popular of late years on account of its UNEQUALED KEEPING QUALITIES as well as for the great SOLIDITY and WEIGHT of the heads. It is strong and vigorous in growth, and produces large, round, compact heads, exceedingly hard and solid weighing, when trimmed, fully one-fourth more than any other cabbage of equal size. For boiling, slaw, sauerkraut, etc., is is unequaled, being crisp, tender and sweet. It seems to grow well on all soils and under most conditions, withstanding hot, dry weather, and does not rot from the effects of wet seasons, neither do the heads burst. Danish grown seed. Pkt., 20 cts.; oz., 25 cts.; 1 lb., 80 cts.

This variety is uniform in heading, and dwarf in growth. The heads appear to rest on the surface of the soil. It grows with little outer foliage, the leaves all folding in closely about the head which is very soild. It is a standard sort for winter keeping and sells readily in the winter and spring markets. With good cultivation heads attain a weight of 20 to 30 pounds and are of the finest quality. Pkt., 5 cts.; 20ts.; 2 lb., 60 cts., postpaid.

DANISH BALLHEAD, -from a Photograph.

Surehead CABBAGE

A leading late variety. It produces large, round, flattened heads of the Flat Dutch type, and is remarkable for its certainty to head. The heads are very uniform in size, extremely solid, fine in texture and flavor, and ordinarily weigh from ten to fifteen pounds each. It has but few loose leaves and is an excellent keeper.

Pkt., 5 cts.; oz., 20 cts.; 1 lb., 60 cts., postpaid.

Red Drumhead

The well known standard cabbage. Heads are of large size, lightly rounded, and from seven to eight inches in diameter. A raluable variety for pickling; very sweet, tender and of excellent quality. Pkt., 5 cts.; cz., 15 cts.; ½ lb., 50 cts., postpaid.

Perfection Savoy

This is the hardest heading and best all-round Savoy. Plants are of strong growth, having only a moderate amount of outer foliage growing closely about the large solid round heads. It is very sweet and crisp, and always tender. The heads are beautifully blanched and of the finest flavor. Pkt., 5 cts.; oz., 15 cts.; 1 lb., 50 cts.

SUREHEAD

Our Cauliflower seed is imported from Denmark. Danish grown seed is the finest and best in the world. Our packets each contain seed enough to produce 200 plants.

Dry Weather

Especially adapted to resist drought. Reaches perfection where ordinary sorts fail. Pre-eminently the best early variety for

the family garden and also for market gardeners in sections which are not especially adapted for cauliflower.

Plants are of vigorous growth, producing large solid heads of snowy whiteness and fine quality. It has heavy foliage and is not liable to rot in hot weather. It is in all respects a first-class cauliflower, but is especially and peculiarly adapted to dry situations and to resisting the effects of drought. It will also do well in wet or moist seasons, making heads equal to the best. Pkt., 15 cts.; 4 oz., 70 cts.; 2 oz., \$1.25; oz., \$2.40.

CAULIFLOWER—Continued

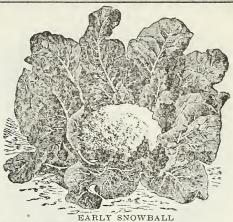

Early Snowball

FOR EARLINESS AND RELIABILITY TO PRODUCE A HEAD OF GOOD SIZE, AND RICH, WHITE, CURDY APPEARANCE IT IS UNEQUALED. It forms snow white heads, six to ten inches in diameter, of good quality.

While originally recommended and used as an early variety, it has not only supplanted all other sorts for spring p'anting, but it has largely driven out the large late sorts for fall use, being much finer in quality, and the one cauliflower that is absolutely certain to head when conditions are ordinarily favorable. The heads are so solid, compact and deep that they will outweigh those of any other strain. There is a great difference in the strains of this variety offered, but our stock is the very best. Pkt., 10 cts.; ½ oz., 60 cts.; ½ oz., \$1.10; oz., \$2.00.

Autumn Giant

This is a large variety, with fine, well proportioned heads. The heads are so well protected by the foliage as to remain fit for use a long time. Suitable for late planting. Quality excellent. Pkt., 10 cts.; 2 cz., 50 cts.; 1 lb., \$1.60, postpaid.

CHOICE CARROTS

Our stocks of Carrot seed are true of type, being far superior to the stock generally offered by the average er. Our packets each contain \(\frac{1}{4} \) ounce of seed.

Ox Heart, or Guerande

A magnificent Carrot for general culture; indeed, by many considered the best of all. It is very thick-through, about 5 inches long, stump rooted, often attaining a weight of tenpounds and more. The color is deep red. The flash tender and sweet. We recommend this variety for the home garden as well as for the market; it is especially desirable for hard and stiff soil where longer sorts cannot desirable for nard and stur soil where longer sorts cannot thrive in. With us it yielded at the rate of 35 tons to the acre, all marketable. Pkt., 5 cts.; oz., 10 cts.; 2 lb., 30 cts.; lb., \$1.00.

Chantenay

Early Scarlet Horn

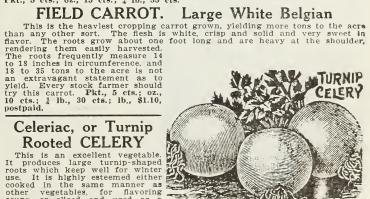

This is a popular early variety, three to four inches long and stumpflesh is fine grained and the color a deep orange. It has small tops and grows
well in shallow soil. A fine table carrot when pulled young, is excellent for
soups. This variety is considered by many to be the best early table sort.

FIELD CARROLL.

Celeriac, or Turnip Rooted CELERY

This is an excellent vegetable.

It produces large turnip-shaped roots which keep well for winter use. It is highly esteemed either cooked in the same manner as other vegetables, for flavoring soups, or silced and used as a salad. Pkt., 5 cts.; oz., 15 cts.

LARGE WHITE BELGIAN

WHITE PLUME

Winter Queen

The most popular of all Celeries for winter. It grows very stout, thick and heavy, with a much larger heart than any other variety. It is a close, compact grower, branches to a beautiful creamy white and is showy and attractive in appearance when ready for table use. The stalks are solid, crisp and of a rich, nutty flavor. It bunches up handsomely and presents an attractive appearance on the market. Pkt., 5 cts.; oz., 20 cts.

Giant Pascal

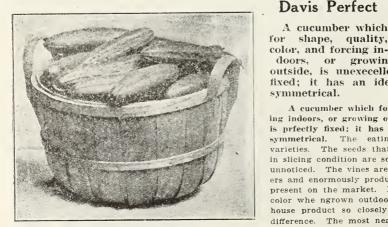

One of the most popular sorts for winter use. It grows about two feet high; the stalks are thick, solid and stringless, and almost as brittle as glass. The stalks are of strong growth, wide and thick, quite heavily ribbed, very brittle and crisp when nicely blanched, making large bunches. It blanches easily and keeps well. Especially recommended for the south where it is prized more than any other kind. Pkt., 5 cts.; oz., 20 cts.

CRESS. Fine Curled

An annual making a god salad. Leaves are finely cut and feathery, like a god parsley. It is dwarf and compact in growth. Very ornamental; of quick growth, crisp and refreshing. Pkt., 5 cts.; oz., 10 cts.

SELECT CUCUMBERS

Our Cucumbers were grown from the finest selected stock, carefully rogued and true of type. The most of our seed was grown on our Fairfield Farm which for quality and productiveness is unexcelled. Our packets each contain 1-4 ounce of seed.

DAVIS PERFECT

CELERY

Our packets of Celery each contain seed enough to produce 500 plants.

White Plume

White Flume
This is the earliest and most easily blanched celery. The plants grow rapidly and blanch easily during the summer months. Later in the fall the central stalks and leaves are of pure, snowy whiteness even without earthing up, but stalks should be gathered together and earthed up as in other varieties, so as to produce close, attractive bunches. As for succulence, crispness and quality, the White Plume is unequaled. Pkt., 5 cts.; oz., 30 rts.

Golden Self-Blanching

GOLDEN-SELF BLANCHING

The best of all self-blanching varieties. It is without doubt the most popular celery grown. The ribs are perfectly solid, crisp, brittle, and of a delicious flavor surpassed by no other variety, while it has the decided merit of being self-blanching to a remarkable degree. It is extensively grown both for market and private use, not only on account of its easy culture, but for its superior quality. The hearts are large and solid, and blanched to a beautiful golden yellow. When grown in moist soil the stalks are numerous and large in size. Strictly French grown seed. Pkt., 10 cts.; oz., 65 cts.

WINTER QUEEN

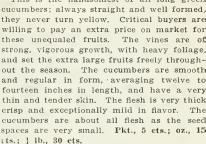

color, and forcing inor growing outside, is unexecelled. The type is perfectly fixed; it has an ideal shape, being slim and symmetrical.

A cucumber which for shape, quality, color, and forcing indoors, or growing outside, is unexecelled. The type is prfectly fixed; it has an ideal shape, being slim and symmetrical. The eating qualities surpass all other varieties. The seeds that are contained in it when it is in slicing condition are so small and tender that they are unnoticed. The vines are very strong and rampant growers and enormously productive, outyielding any variety at present on the market. It does not change its dark rich color whe ngrown outdoors, in fact it resembles the hothouse product so closely that dealers cannot detect the difference. The most nearly perfect CUCUMBER yet introduced. Pkt., 10 cts.; oz., 15 cts.; 1 lb., 35 cts.

Fordhook Famous

The longest white spine, finest flavored of all cucumbers.

This is the handsomest of all long green cucumbers; always straight and well formed, they never turn yellow. Critical buyers are willing to pay an extra price on market for these unequaled fruits. The vines are of strong, vigorous growth, with heavy foliage, out the season. The cucumbers are smooth and regular in form, averaging twelve to fourteen inches in length, and have a very thin and tender skin. The flesh is very thick crisp and exceptionally mild in flavor. The cucumbers are about all flesh as the seed spaces are very small. Pkt., 5 cts.; oz., 15

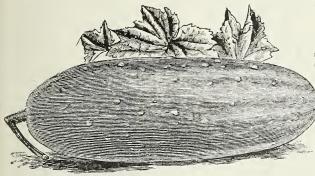

Extra Early White Spine

A dark green, handsome cucumber, often attaining a length of 12 inches; straight and attractive in shape. It makes a hard, brittle pickle when small, and a grand table variety when large. Excels in earliness, often ready for slicing when other sorts are only pickles. Vines are vigorous growers and bear large crops. It makes a valuable variety to plant for early market. Pkt., 5 cts.; oz., 10 cts.; 4 lb., 30 cts.

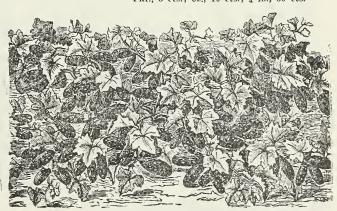

FORDHOOK FAMOUS

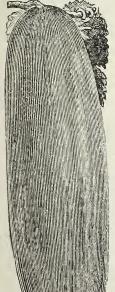

EXTRA EARLY WHITE SPINE

Everbearing

This is a very early variety and exemely prolific. If the fruits are kept tremely prolific. gathered, vines will continue in bearing throughout the season. The fruits, of a rich dark green color, average from four to five inches in length by an inch and a half in diameter. Owing to its great productiveness it is a fine variety to plant for producing small pickles. Pkt., 5 cts.; oz., 15 cts.; 1 lb., 30 cts., postpaid.

EVERBEARING

EMERALD CUCUMBER.

Emerald

A symmetrical dark green oucumber which holds its color a long time after being pick-ed. It is strictly an evergreen, retaining its color until quite ripe, naking it an attractive The fruits set variety. early, and its vigorous vines abound in long, straight, handsome fruits of the most de-sirable qualities. As a slicer, the flesh is par-fectly crisp and ten-der, and the flavoring der, and the flavoring most pleasant. The young fruits being a dark green, straight, slender and almost spineless, makes an excellent pickle, and when ripe none excel it for making sweet plexles. Good for forcing under glass or ing under glass or long distance shipping. Pkt., 5 cts.; oz., 15 cts.; 1 lb., 30 cts.

Cumberland Cucumber

The vines are hardy, of strong, vigorous growth, and very productive. The young cucumbers are thickly set with small spines, and are equally attractive for making small gherkins, medium sized or large pickles. The straight young fruits possess the distinct roughened surface so much desired in pickles. When matured the fruits average nine to ten inches in length, two and one-half inches in diameter, have well rounded ends, and are of excellent quality for slicing. Pkt., 5 cts.; oz., 10 cts.; ½ lb., 30 cts., postpaid.

SWEET CORN

We offer Fairfield grown stock which for QUALITY is unsurpassed. Our packets each contain one and one-half ounces of seed.

Early Fordhook

One of the earliest varieties of Sweet Corn in cul-One of the earliest varieties of Sweet Corn in cultivation. The ears are large, averaging from 6 to 8 inches in length. Ears are eight-10wed, with quite small cobs and deep grains. The seed is of exceptional hardiness, admittingly to early planting. The stalks are of sturdy, vigorous growth, three to four feet high, with abundant foliage, and generally produce two fine ears to a stalk. Both grains and cobs are of a pure white color. Pkt., 5 cts.; ½ pt., 15 cts.; pt., 25 cts.; qt., 40 cts.

Premo

A LEADING EARLY VARIETY. It combines all the merits of the leading early varieties, but is superior to them all in size, quality and yield.

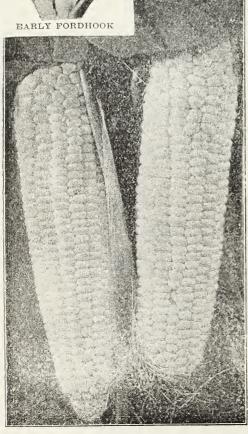

Premo is very hardy and may be planted sooner than other varieties. The stalks grow about five feet high and are very vigorous, generally bearing two well developed ears to a stalk. Its earliness and table quality is sure to bring it into favor with all gardeners. Pkt., 5 cts.; ½ pt., 15 cts.; pt., 25 cts.; qt., 40 cts.

THE LARGEST-EARED, SWEETEST-FLAVOR-ED EARLY VARHETY IN CULTIVATION. This variety is of exceptional hardiness and productiveness. It produces an ear of large size, combined with an anusual sweet flavor for so early a corn. The stalks are strong and vigorous, four to four and one-half feet high and generally produce two fine ears to each stalk. The ears are seven to nine inches in length, with fourteen or more rows of medium sized pearly white grains. The grains are sweet and rich in flavor. The ears are protected by a heavy husk which extends beyond the tip of the ear and forms a safeguard against the destructive green worms Pkt., 5 cts.; ½ pt., 15 cts.; pt., 25 cts.; qt., 40 cts.

White Evergreen

WHITE EVERGREEN

HORSE RADISH Maliner Kren

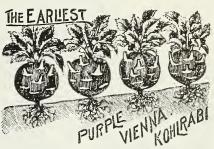

A new, very quick-growing, large-rooted variety. Cuttings set out in April will yield large bottoms in October. Its flavor is the best, this is very noticeable in the fall when the old variety would be too old and juicy to use. Roots are as white as chalk. It is as easily grown as potatoes and should be grown in every garden. Per dozen, 25 cts., postpaid. Ready for shipping about April.

KOHL RABI White Vienna

This vegetable is grown for its turnip-shaped bulb, which is formed above the ground. Excellent for soups or cooked in the same manner as turnips. The bulbs should be used while young and tender. The best for table use. Pkt., 5 cts. cg. 15 cts. 5 cts.; oz., 15 cts.

Purple Vienna

Grows to large size and of juicy quality. Very early, of fine shape and delicate flavor. Pkt., 5 cts.; oz., 15 cts.

HORSE RADISH

EGG PLANT Black Beauty

The earliest and best of all large-fruited Egg Plants. It is an extra early variety with fruits of a beautiful jet black color. The fruits set freely and develop quickly so that the crop can be gathered before there is any danger from frost. It is of dwarf growth and bears its fruit, which weighs from one to three pounds each, close to the stem. The calyx is entirely free from spines and thorns. The intensely brilliant coloring is uniform over the whole fruit. The plants usually bear eight to ten immense fruits before being killed by frost. Pkt., 10 cts.; oz., 40 cts.

Most highly esteemed for havoring soups, stews, etc. The plants are of strong, vigorous growth, and have extra long stems which blanch to a snowy whiteness and are of delicious flavor. Cultivate the same as for onions. Pkt., 5 cts.; oz., 15 cts.

Giant Crimson Rhubarb

BLACK BEAUTY EGG PLANT.

or Pie Plant Our Giant Crimson Rhubarb is one of the greatest and most valuable novelties we have ever offered. It is the earliest of all rhubarb, and fit for use not only in the spring, but all through the symmer and fall, while common sorts are fit to use only a few weeks in spring. As fast as stalks are pulled new ones take their places, and in the south or Pacific states, it may be used all the year, requiring only water in dry localities to keep it growing. Stalks are of medium size, of good length, about one inch in diameter, of beautiful crimson color, the quality being simply superb, fully equal to the finest berries for sauce or pies, and is really a combination of fruit and vegetable. The skin is so thin and tender it is not necessary to remove it, and when cooked makes a beautiful crimson sauce which looks and tastes like berries. It is especially adapted for forcing in greenhouses or cold frames.

Rhubarb is the first vegetable from the ground in spring and the easiest plant of all perennials to grow. A half dozen plants will supply a large family during the season, and plants well established will last for years. For the best results roots should be planted three feet apart each way. Ready about April 1. Price, 20 cts. each, 3 fe 50 cts., by mail postpaid.

POP CORN. White Rice

This variety is the best for popping; grains pointed; pops full and white; ears large sized, very handsome; productive; excellent quality; very crisp and delicious. Pkt., 5 cts.; pt., 20 cts.; qt., 35 cts., postpaid.

LETTUCE

CALIFORNIA CREAM BUTTER

You should grow Lettuce largely for your table! Nothing is more wholesome, and if you once acquire the labit you will wonder how you ever anjoyed a dinner without this delightfal salad. Our stock is extra fine. Our packets each contain 1 ounce of seed.

Naumberger

This new variety is sure to become famous for its remarkable certainty to produce a fine solid head of good size. It is also extra early, being one of the first to head; the heads will stand longer without rotting or bolting to seed than any other variety. The quality is all that can be desired, being tender, buttery and of very mild flavor. Most highly recommended. Pkt., 5 cts.; oz., 10 cts.; 4 lb., 25 cts.

California Cream Butter A GRAND CABBAGE LETTUCE.

A GRAND CABBAGE LETTUCE.

A Grand, Good Butter Lettuce for summer use. The heads are of good size, round and solid. The outside leaves are medium green, while those within are of a rich cream yellow. Rich and buttery in taste. It produces large, solid heads even in hot weather. Easy to grow and a good shipping variety. This is one of the finest and best sorts ever offered. Pkt., 5 cts.; oz., 10 cts.; ½ lb., 25 cts.

Grand Rapids

A well known forcing variety. It does not form heads, but makes large bunches of light green leaves with fringed edges. Its upright habit of growth permits close planting. It will make a quick growth under adverse conditions and is not subject to rot. Quality excellent. Pkt., 5 cts.; oz., 10 cts.; 1 lb., 25 cts.

New Iceberg

The unusual solidity of the heads is assured by the large white main ribs of the leaves, each of which, curving strongly into the center, acts like a truss, making it impossible for the leaves to open outward and expose the center, which is always thoroughly blanched. It is quick growing and always crisp and tender whether propagated in early spring or in the hot days of summer. The heads are of good size. Pkt., 5 cts.; oz., 10 cts.; ½ lb., 30c.

May King

This variety is not in the least affected by cold or wet weather, but produces large solid heads, 10 to 14 days ahead of most other varieties. The plants grow from 6 to 7 inches in diameter, with the outer leaves folding closely, forming the plant into a solid head.

The outer leaves are light green, slightly tinged with brown; the inner leaves are light yellow and of a fine, rich, buttery flavor. Pkt., 5 cts.; oz., 10 cts.; 4 lb., 30 cts.

The the siz is alm greenNEW MODEL CANTALOUPE THE PERFECT MUSKMELON

LETTUCE—Continued

Deacon

This magnificent lettuce stands hot weather better than any other of the rich butter varieties. Plants make firm heads, nearly as large and almost as solid as a cabbage. The heads are light green outside, while the inner blanched portion is cream-yellow and of delicious rich, buttery flavor. Pkt., 5 cts.; oz., 10 cts.; ‡ lb., 25 cts., postpaid.

MUSK MELONS

Our packets each contain 1 ounce of seed.

New Model

SPICY GREEN FLESH. SMALL SEED CAVITY. A PRODIGIOUS BEARER.

The Model is an early cantaloupe, about twice the size of Rocky Ford, and more productive. It is almost round, the flesh is thick and firm, green-colored, while in delicacy and flavor it is

MUSKMELON

MUSKMELON

The Model bears transportation well, and can be carried to distant cities without injury. The average weight per melon is over two pounds. No one who wants good melons for either home or market use should fail to plant this variety. Pkt., 5 cts.; oz., 15 cts.; 1 lb., 40 cts., postpaid.

Paul Rose

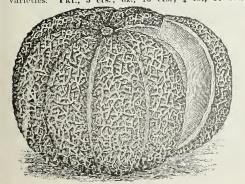

This variety combines all the good qualities of Netted Gem and Osage, the varieties from which it originated; possessing the sweetness of the latter and the finely netted appearance of the Gem. The fruits are nearly round or slightly oval and of a light green color when fully ripe. The flesh is thick, of a rich orange color, and ripens close to the rind. Its firm flesh makes it an ideal shipper. Pkt., 5 cts.; oz., 10 cts.; 1 lb., 30 cts.

Netted Gem or Rocky Ford

ONE OF THE MOST POPULAR GREEN FLESH-ED MUSK MELONS. In the hands of Rocky Ford growers it has made Colorado famous in eastern markets for melons of UNEQUALED QUALITY. The vines are exceedingly healthy and vigorous, bearing speace on the colorado guantity of fruits during the

entire season.

The color of the skin is a rich greenish gold; the netting is prominent and light in color; appearance very attractive. The flesh is deep, ripening clear to the rind, very solid, yet thoroughly melting, and it has an exceedingly small seed cavity. It is very sweet and luscious in flavor. No melon comes to market that sells as readily and at such high prices as the Rocky Ford, often to the exclusion of other varieties. Pkt., 5 cts.; oz., 10 cts.; ¼ lb., 30 cts.

EXTRA EARLY HACKENSACK

ROCK FORD

Extra Early Hackensack

This is a selection of the popular Hackensack, but ripens fully ten days earlier. A bountiful yielder and one of the most extensively grown of all musk melons. It is a large, round variety, flattened at the ends, well ribbed and deeply netted. The flesh is green, inclining towards yellow at the center, and of the most delicious flavor. Fruits attain a good size. The vines make good strong growth and bear abundantly. It is also considered as a splendid shipping melon. Pkt., 5 cts.; oz., 10 cts.; ½ lb., 30 cts., postpaid.

MUSK MELONS-Continued

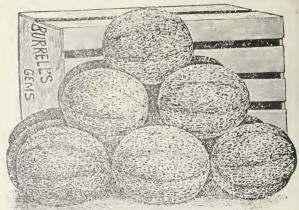

Burrel's Gem

A popular salmon fleshed melon. The melons are 6 to 7 inches long by 4 to 5 inches In diameter, rather sharply sloping at the ends. They are quite well ribbed and covered with a fine grayish netting. The flesh is thick and firm ripening close to the skin, leaving only a thin rind. The skin is a rich dark green, contrasting finely with the deep orange-salmon colored flesh, which is very sweet and tender. Pkt., 5 cts.; oz., 10 cts.; 1 lb., 30 cts.

Water Welons Our packets each contain 1 ounce of seed.

Fordhook Early

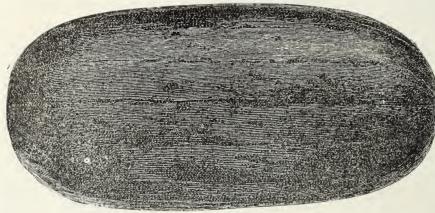

This is the only extra early Water Melon we have that is of good size and quality. From seed planted May 10 LARGE RIPE MELONS WERE PICKED THE LAST DAY OF JULY. The fruits are of large size, rather short and blocky in form, with large diameters. Flesh bright red, crisp, sweet and of splendid quality. The quality continues to improve after ripening. The heart is large, there is little or no seed cavity and very few seeds—all solid flesh, the quality of which is sustained clear to the rind. The vines are of strong, vigorous growth, setting large melons in good numbers. Skin dark green, occasionally with faint stripes of a light green. A good shipper. Pkt., 5 ets.; oz., 10 ets.; \(\frac{1}{4}\) lb., 25 ets., postpaid.

Halbert Honey WATER MELON

THE VERY FINEST MELON IN CULTIVATION FOR HOME USE OR NEARBY MARKET. A Melon that has no equal in beauty, quality and productiveness. The Melons are smooth and regular in outline, four-teen to eighteen inches long and six to eight inches in diameter. Color of the rind is a clear, glossy deep green.

The flesh is a

HALBERT HONEY

develop fine fruit throughout the season; even the late fruits are of the same large size and regular form. The sweet flesh melts away in the mouth like honey. Pkt., 5 cts.; 2 lb., 25 cts.

Sweet Heart

A large Water Melon nearly globular in shape, but a little longer than thick. Fruits are large and heavy, skin very pale green, with distinct netted lines of a slightly richer shade. The solid flesh is a deep rich red, crisp and melting; its excellent quality has made it a leading favorite on the market. The vines are vigorous and productive, ripfavorite on the market. The vines are vigorous and productive, ripening the fruits quite early. A good keeper and a good selling melon, being attractive and of good quality. The handsome fruits bear shipping well. Pkt., 5 cts.; oz., 10 cts.; \$\frac{1}{2} \text{ lb., 20 cts., postpaid.}

Dark Icing

A nearly round, white seeded Mater Melon, with very thin rind. The flesh is deep pink and of delicious sweetness. Fruits large, very dark skinned and of attractive appearance. The vine is a remarkably strong grower and a heavy bearer. It is an excellent shipper notwithstanding its thin rind. Pkt., 5 cts.; oz., 10 cts.; 1b., 20 cts. A nearly round, white

WATER MELONS-Continued

Dixie Water Melon

A Water Melon of highest quality and value. The size is large specimens of 50 pounds being not infrequent. Flesh is scarlet, very fine and extra firm. This variety is the most prolific known, often producing six to eight melons on a single vine. The vines root at the joints, and thus become more drought resisting and vigorous. Pkt., 5 cfs.; oz., 10 cfs.; 4 lb., 20 cfs.

A nearly round white seeded Water Melon with very thin rind. The flesh is deep pink and of delicious sweetness. Fruits large, very dark skinned and of attractive appearance. The vine is a remarkably strong grower and a heavy bearer. It is an excellent shipper notwithstanding its thin rind. Pkt., 5 ets.; oz., 10 cts.; 1 lb., 20 cts.

Citron Colorado Preserving

Medium sized, round, used only for preserves and pickles. Pkt., 5 cts.; oz., 10 cts.; 1 lb., 25 cts.; lb., 75 cts.

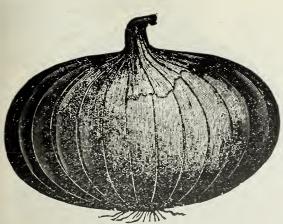

We make a specialty of "HIGH GRADE" Onion seed. It is better to plant no Onions at all than to sow seed of poor quality. Our seed is grown from the finest selected bulbs and is of strong vitality.

Our packets of Onions contain sufficient seed to sow about 50 feet of drill.

DIXIE

Yellow Globe Danvers

This is a standard yellow onion and is more largely grown than almost any other variety. The bulbs grow to about two and one-half inches in diameter, are nearly globe shaped, and of a light golden brown color. The flesh is pure white. The bulb is extremely hard and solid, and Its earliness, sure cropping character, handsome appearance and excellent quality, have placed YELLOW GLOBE DANVERS among the leading varieties for the home or market garden. It forms a bu'b very early in the season, so that it may be used almost all summer, and ripens up crisp and solid in the fall. It is a very heavy cropper. Our strain of this variety is unsurpassed. Pkt., 5 cts.; oz., 15 cts.; 1 lb., 45 cts.; lb., \$1.40.

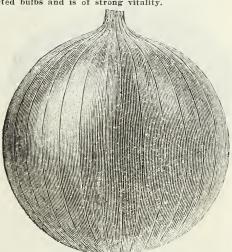

LARGE RED WETHERSFIELD

Prizetaker

THE KING OF ALL YELLOW GLOBE ONIONS.

This is one of the largest Onions in cultivation. It is the large, beautiful Spanish variety so often seen in the fruit stores and markets of all large cities.

Bulbs are nearly globe shaped, with bright straw colored skin, growing to an immense size the first season from seed. They ripen up without stiffnecks and present a very handsome appearance. The flesh is pure white, fine grained, delicious and mild in flavor; fine for fall and early winter use. Bulbs measure from twelve to fourteen inches in circumference and under special cultivation specimens have been raised weighing five pounds each. In the markets they attract special attention and sell readily at good prices. Pkt., 5 cts.; oz., 15 cts.; 1 lb., 40 cts.; lb., \$1.50, postpaid.

YELLOW GLOBE DANVERS

Large Red Wethersfield

The most popular red variety. It is very productive, having yielded over one thousand bushels per acre. It is not an early ripening sort, but continues in growth throughout the season and consequently makes a very large onion. The bulbs are large though somewhat flattened as shown in the illustration. The outer skin is a deep purplish red; flesh white, slightly tinged with rose. It is a fine keeper; suitable for late winter markets. The flavor is good and mild, admirable for boiling. The best variety for poor or dry soils. You will make no mistake by giving this variety a trial. Pkt., 5 cts.; oz., 15 cts.; j lb., 45 cts.; lb., \$1,50, postpaid.

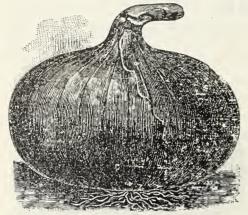

ONIONS-Continued

THREE TRUE GLOBE ONIONS

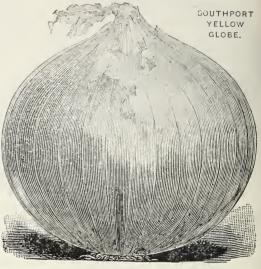

The Southport Globe Onions have increased wonderfully in public favor during the last few years, and they well deserve their popularity. In almost all markets they invariably bring top prices. They are not only of handsome appearance, remarkable solidity and good keepers, but also fully equal in yield to the best strains of any varieties.

Southport Yellow Globe

This is one of the most satisfactory and popular varieties raised for family use or for market. It is an enormous yielder, hardy and reliable, making, under normal conditions, often up to 1,000 bushels per acre. The onions are models of perfection, growing uniformly deep and globular in shape, veritable globes of gold, and are extra large, averaging nine to ten inches in circumference. The color of the skin is an attractive golden yellow; the flesh snow white, firm, mild and

AUSTRALIAN BROWN

necks enable the onions to ripen The small down evenly, insuring good keeping qualities. Pkt. cts.; oz., 10 cts.; 1 lb., 45 cts.; lb., \$1.60, postpaid.

Australian Brown

This remarkable onion is of medium size, wonderfully hard and solid and most attractive for market, both in form and appearance. They are extremely early in ripening and make no stiffnecks or scallions. Every seed seems to produce a good sized onion, and the bulb begins to form very quickly, when the plant is not over three inches high. It has the reputation of keeping indefinitely, and we think from its firmness and hardness that it will keep in good condition longer than any other onion known. The color of the skin is a clear amber brown. Pkt., 5 cts.; oz., 15 cts.; I lb., 40 cts.; lb., \$1.40, postpaid.

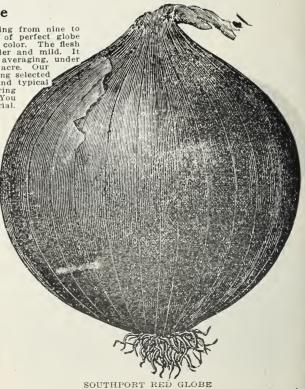

A handsome onion of immense size, averaging from nine to ten inches in circumference, solid, heavy, and of perfect globe shape. The skin is a glossy deep purplish red color. The flesh is close grained, sparkling white, cooking tender and mild. It is hardy, a splendid keeper and a big yielder, averaging, under good culture, from 800 to 1,000 bushels per acre. Our strain of this seed is unsurpassed, the bulbs being selected for largest size, solidity, brilliant rich color, and typical globe shape, with small necks, thus insuring thorough and regular ripening and curing. You will make no mistake in giving this onion a trial. Pkt., 5 cts.; oz., 15 cts.; ½ lb., 45 cts.; lb., \$1.60, postpaid.

Southport White Globe

The most beautiful Onion grown, being of symmetrical globe shape with a smooth satin-like skin, forming a perfect silver ball. It grows to a large size, averaging seven to nine inches in circumference, and is solid and heavy; the flesh is purest white, close grained, mild and of delicate flavor. Owing to its large size it is later in ripening than the White Portugal or Silverskin. As soon as ripe the bulbs should be stored in a cool, dark shed or dry cellar. It is a heavy cropper. For the family garden as well as for market it is a valuable onlon. Pkt., 10 cts.; oz., 20 cts.; \(\frac{1}{4}\) lb., 60 cts.

Silverskin

A leading white, flat Onion. The bulbs attain a good size, ripen evenly. The color is a beautiful silvery white when cured. Its shape is flat but symmetrical. For a white variety it is not only early but also a good keeper. For slicing and boiling it is one of the best, the flesh being mild and tender. It is largely grown for pickling, being sown three or four times as thick as usual, and is also extensively sown for sets. For the family garden it is one of the best. Pkt., 5 cts.; oz., 15 cts.; ½ lb., 50 cts.; lb., \$1.80.

ONION SETS

Onion Sets

The planting of Onion Sets is increasing rapidly year after year. By planting sets you can have onions ready for use several weeks earlier than can be had from seed.

White Bottom Sets

These are small, solid, and of a beautiful silvery white color. A favorite variety in private and market gardens. Pint, 15 cts.; qt., 25 cts., postpaid.

Yellow Bottom Sets

Produced from seed which makes the finest yellow sets. Fine and dry, medium in size and unsprouted. Pint, 10 cts.; qt., 20 cts., postpaid.

Red Bottom Sets

These are planted to produce both early green and late eating onions. Pint, 10 cts.; qt., 20 cts., postpaid.
Write for special prices if

Write for special prices if wanted in larger quantities.

PARSLEY Moss Curled

The leaves are of an extra dark green color. It is very productive, and on account of its densely curled character of its leaves a large quantity can be gathered in a short time. It is much used for flavoring and garnishing. Pkt., 5 cts.; oz., 10 cts.

PARSNIP

Improved Half-Long

This variety is an improvement on the old Hollow Crown, forming roots shorter and thicker than that variety, and is also more easily gathered. The fiesh is white, of fine texture, free from core and stringiness, and of the finest flavor when cooked. This parsnip is one of the heaviest croppers and we recommend it both for garden and field culture. Its quality is improved by freezing. Pkt., 5 cts.; oz., 10 cts.; 1 lb., 20 cts.; lb., 65 cts.

MUSTARD

OKRA White Velvet

The long, tender pods of Okra are very delicious when sliced and cooked in soups. While this is its chief use it is also boiled and served like other vegetables. The pods should be gathered while young, as they are then very tender. Pkt., 5 cts.; oz., 10 cts.

GIGANTIC THICK LEAVED. Each plant produces a great number of large thick leaves which are of the finest flavor. Grown in rich soil the leaves attain a length of two feet, It is excellent for boiling. Pkt., 5 cts.; oz., 10 cts.

CHOICE GARDEN PEAS

Our Peas are northern grown and free from bugs. They are the earliest, hardiest and most productive. They were grown from the finest selected stock, are bright, handsome, of perfect growth, were critically rogued and carefully hand picked. The Pea crop never was as small as this year and we will advise our friends and customers to send their orders early so they may be filled before our stocks are exhausted. Packet of Peas contains TWO OUNCES.

Early Excelsion

The leader of the early dwarf wrinkled Peas. It grows to a height of about twelve inches; of compact growth, being similar to Nott's Excelsior In this respect but superior to it in the following particulars:

First, the vines are more dense and sturdy; second, the peas and pods are decidedly larger, measuring from three and one-half to four inches in length, and contain from 6 to 8 large peas of delicious quality; it is a much surer cropper. It is also very early, the past three seasons it was ready for use in forty-five days after sowing.

One of the most valuable early Peas, surpassing in earliness, yield and quality.

Pkt., 5 cts.; ½ pt., 15 cts.; pt., 25 cts.; qt., 45 cts.

EARLY EXCELSIOR

HARBINGER

PEAS-Continued

Harbinger

An extra early dwarf pea of English origin which rarely grows over eight inches high and is immensely productive. It is quite distinct from all other varieties in habit of growth and appearance; the vines being unusually robust and stocky. The vines are literally covered with pods which are well filled with peas of delicious quality. The even, regular habit of the plants is a great advantage, particularly to market growers. Pkt., 5 cts.; ½ pt., 15 cts.; pt., 25 cts.; qt., 45 cts.

Nott's Excelsion

The sweetest and most prolific of all Early Dwarf Peas. A very fine variety of dwarf, compact growth, with pods three inches in length, which are well filled to the squared ends with large peas of unusually sweet flavor.

It is of vigorous growth and wonderfully productive. It grows from twelve to fourteen inches high. In favorable weather and soil it will mature in the remarkable short period of forty-five days. The best sort for the home or market garden. Pkt., 5 ets.; ½ pt., 15 ets.; pt., 25 ets.; qt., 45 ets.

BRITISH WONDER

British Wonder

THE SWEETEST FLAVORED PEA IN CULTIVATION.

Even sweeter in flavor than either Gradus or Thomas Laxton. The growth is similar to Carter's Daisy, except that the foliage is darker green and pods are not so sharply pointed. It is, however, much more reliable, and is a SURER CEOPPER.

The vines are very stocky, twelve to eighteen inches high, and are well supplied with light green foliage, which in dieates great vigor. The pods are produced in the greatest profusion, measuring about four inches in length, and contain from eight to ten large dark green peas each, which are of a most luscious flavor. It matures a little earlier than Dwarf Telephone. Most highly recommended. Pkt., 5 cts.; ½ pt., 15 cts.; pt., 25 cts.; qt., 45 cts., postpaid.

Dwarf Telephone

A GIANT PODDED PEA. This is one of the finest dwarf green wrinkled Marrow Peas in cultivation, and one that ought to be grown in every garden. A strong, luxuriant growing variety, attaining a height of about eighteen inches. The pods, which grow five inches long, are packed with immense wrinkled marrow peas, eight to ten being the average, while twelve to fifteen to a pod are frequently found. The quality is superb, rich, sugary and meltingly tender. As high as eighteen large, handsome pods have been grown on a single plants. Pkt., 5 cts.; ½ pt., 20 cts.; pt., 30 cts.; qt., 50 cts.

Edible Podded Pea

MAMMOTH MELTING SUGAR. The vines grow four to five feet high. It is very productive and produces enormous pods which average five to six inches in length and one and a half inches broad; thick and fleshy. When broken and boiled like string beans and served with butter sauce they have a luscious flavor. It is a delicious vegetable, and should be better known and more generally used. Pkt., 10 cts.; ½ pt., 15 cts.; pt.,

Pepper

Our packets of

Pepper each

contain seed

enough to

produce plants.

CHINESE GIANT

Early Neapolitan PEPPER

THE EARLIEST SWEET LARGE RED PEPPER. Immensely

THE EARLIEST SWEET LARGE RED PEPPER. Immensely productive and so extremely early, this grand new pepper is of exceptional value to market gardeners. The plants are open-branched, spreading growth, two and one-half feet in height when full grown, but begin to form fruits when only a few inches in height when full grown, but begin to form fruits when only a few inches in height. The plants continue in growth and fruiting until cut down by frost, at which time they are still heavily loaded with fruits. Fruits everage four and a half inches in length by two to two and a half inches the green fruits change to a rich scarlet, and have quite thick flesh of a very mild, sweet flavor. Single plants will show from 35 to 50 peppers of marketable size at one time. Pkt., 5 cts.; ½ oz., 15 cts.; oz., 25 cts.

Chinese Giant

THE FINEST, LARGEST AND HANDSOMEST PEPPER OF THEM ALL. CHINESE GIANT IS CERTAINLY A WONDER. Not only is it immensely productive for so large a pepper, but its enormous size and magnificent appearance make it sell most readily. The plants are vigorous in growth but of stock habit, seldom more than two feet high. It produces monstrous peppers of thick, blocky form which are of the most brilliant scarlet. They grow four to five inches broad at the top and are of equal length, divided into four or more ridges; when ripe they are indented at the blossom end. Frequently half a dozen peppers touch each other as if on a single bunch. The flesh is thick and very mild, being entirely free from any flery flavor. They can be sliced and eaten like tomatoes. Pkt., 10 cts.; ½ oz., 35 cts.; oz., 60 cts.

Golden Queen

GOLDEN QUEEN IS THE BEST OF ALL YELLOW PEPPERS. It is always large and sometimes remarkably so, specimens reaching six to ten inches in length and four to five inches in diameter are not uncommon. A single plant sometimes carries TWENTY LARGE PEPPERS AT THE SAME TIME. The flavor is mild and pleasant and it may be eaten raw. It always commands the highest price on account of its large size and fine appearance. It is unexcelled for stuffing. Pkt., 5 cts.; oz., 30 cts.

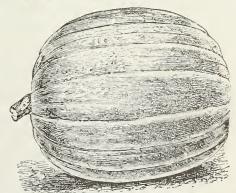

PUMPKINS

Big Tom

Also known as Connecticut Field. Vines are of strong vigorous growth and wonderfully productive. Fruits will average 15 to 20 inches in diameter; round or oval in form. The skin is smooth and hard, of a reddish orange color, slightly ribbed, with thick, rich orange yellow flesh. It is the hardlest of all pumpkins and is good for pies. This variety is extensively grown for stock feeding and is generally planted in with the corn. Oz., 5 cts.; 4 lb., 15 cts.; 1b., 40 cts., postpaid.

Ouaker Pie

A most prolific variety. The fruits are broad, pear-shaped or slightly oval in form. The flesh is very thick and fine grained, of a beautiful golden yellow color, and in texture and flavor peculiarly adapted for pie making purposes. It is very prolific and keeps well for winter use. It is sweet and delicate in flavor. Skin is a rich creamy buff, which gives it a handsome appearance. Pkt., 5 cts.; oz., 10 cts.; lb., 20 cts.; lb., 70 cts.

BIG TOM FIELD PUMPKIN

THE LARGEST PUMPKIN IN CULTIVATION. This is the very best strain of the True Mam moth Pumpkin. Fruits grow to enormous size, specimens have been grown weighing one nundreds pounds and over. The skin is a light yeilow russet color, flesh very thick, bright yellow, fine grained, sweet and tender and of excellent quality for pies. If you wish to see just how large a pumpkin you can raise try this variety. Pkt., 5 cts.; oz., 15 cts.; ½ lb., 30 cts.; lb., \$1.00. TRUE MAMMOTH

RADISHES

Our packets each contain enough seed to sow 25 feet of row.

Earliest Scarlet

A fine, bright red radish of quick growth. It is especially fine for bunching for early market from plantings in the open ground, being ready for market in from 18 to 25 days. It is solid in character and very uniform in size and shape. The tops are very small, thereby making it the best of all for forcing under glass. The flesh is purest white, firm and crisp in texture and of mild flavor. The roots are entirely free from the hollow center or pithy fibre so often found in radish. The shape is well shown in the illustration. Pkt., 5 cts.; oz., 10 cts.; 1b., 20 cts.; 1b., 60 cts., postpaid.

FRENCH BREAKFAST

French Breakfast

An early, medium sized Radish, olive shaped, very crisp and tender, of a and tender, of a beautiful white scar-let color, tipped with white. It grows about two inches stump rooted. A splendid variety for the table, for its excellent quality and beautiful color are unexcelled. It is a unexcelled. It is a quick growing and exceedingly popular variety. Pkt., 5 cts.; oz., 10 cts.; ½ lb., 20 cts.; lb., 70 cts.

Hailstone

The earliest and quickest growing White Radish in cultivation—ready for use in from 15 to 18 days after sowing. The radishes are regular turnip shaped, measuring one inch in diameter and about half an inch in depth. Flesh is solid, crisp and of mild flavor. The foliage is unusually small. Its unusually small foliage, combined with extreme earliness, handsome appearance, solidity and superb quality, cannot fail to make it the most popular first early white turnip radish. Pkt., 5 cts.; oz., 10 cts.; 1 lb., 25 cts.; lb., 80 cts.

Early Long Scarlet Short Top

This variety is a standard and excellent sort either for private This variety is a standard and excellent sort either for private gardens or for market. The roots grow half above ground, are very uniform in shape, smooth, very bright red in color, and continue crisp and tender until fully matured, when they are about six inches long. It matures beautiful radishes, which are always brittle and sweet. 25 to 30 days from the sowing of the seed. Pkt., 5 cts.; oz., 10 cts.; 1 lb., 20 cts.; lb., 65 cts.

Winter Radish. Chinese Rose

This is a large and fine shaped radish, growing partly above the ground. It is of a half long shape with a blunt point; rose colored skin; flesh white; solld as an apple. It has not the strong flavor of the Black Spanish and keeps equally as well. Pkt., 5 cts.; oz., 10 cts.; 1 lb., 25 cts.; lb., 70 cts.

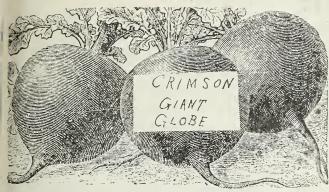

PUMPKIN True Mammoth

EARLIEST SCARLET

Rosy Gem
One of the most popular and attractive short varieties ever grown.
Ready for the table in from 17 to 25 days after sowing. It is a rich deep scarlet at the top, beautifully blended into pure white at the bottom. Exceedingly tender and crisp. Flavor very mild and delicious. A gem in earliness, beauty and quality. Its smooth skin and fine color give it an appetizing appearance when served. Pkt., 5 cts.; oz., 10 cts.; 1 lb., 20 cts.; lb., 70 cts.

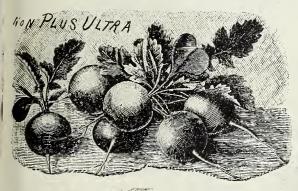

RADISHES-Continued

Non Plus Ultra

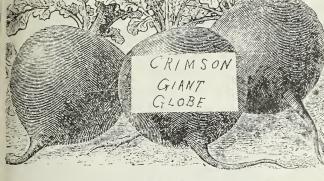

One of the earliest forcing Radishes in cultivation. The roots are round and deep rich scarlet in color. They make a very quick growth, and are ready for use in from 20 to 25 days after sowing. The flesh is white, crisp and tender, and of remarkable fine quality. Pkt., 5 cts.; 0z., 10 cts.; 1 lb., 20 cts.

New White Icicle Radish Long, slender, crisp, tender, mild, purest white. Unexcelled as a money maker. An entirely distinct variety from Germany, and derives its name from the almost transparent whiteness of the roofs. It produces long, slender, pure white radishes very early in the season, much earlier and finer in quality than any other long white variety. The shape is well shown in the illustration. The leaves are short and few, making it an excellent variety for forcing. It is of the best flavor, very brittle and crisp. The roots grow about four inches long and are ready for use in about 25 days after sowing. It is a desirable variety for the home garden and market gardeners will find it a money maker. It is destined to become very popular with growers. Pkt., 5 (ts.; 0z., 10 cts.; 1 lb., 25 cts.; lb., 80 cts.

One of the most delicious vegetables, and also one of the most nutritious; the flavor is sweet and highly esteemed whether served boiled with butter or other suitable sauces, or sliced and fried, or used in soup. This new variety is superseding the old type, as it produces roots nearly double the size and weight and of equally good quality. Seed sown in spring produces large, fine roots that may remain in the ground all winter or may be dug and stored in sand or earth in November, thus keeping them plump and sweet, to be used as desired during the winter. Mild and delicious in flavor. One pkt. will sow 50 feet of row. Pkt., 5 cts.; oz., 15 cts.; 1 lb., 35 cts.; lb., \$1.20, postpaid.

TCICLE

Giant Globe

SPINACH

SQUASH

Bush Fordhook

One package of Squash contains enough seed to plant 10 hills,

One package of Squash contains enough seed to plant 10 hills. The most desirable Squash for either summer or winter use. It is of true bush type and can be grown much closer together than the running sorts. The vines are of strong, vigorous growth and wonderfully productive. The fruits are pear shaped, seven to nine inches long, slightly ridged; smooth, thin, yellow skin. Flesh is very thick and of a light straw yellow color. For frying, baking or making pies they are unsurpassed. Stored in a dry place they will keep until the following spring. It is early and has proven to be one of the hardiest and most dependable squash for all localities. Pkt., 5 cts.; oz., 10 cts.; ½ lb., 30 cts.; lb., \$1.00, postpaid.

Giant Summer Crookneck

This magnificent strain is equally as early as the common small fruited varieties. It is of a bright yellow color and from 18 inches to 2 feet long. Fruits are solid, heavy, and freely produced on healthy, vigorous plants of compact bush habit. The flesh has a greenish yellow color, is dry, and of most agreeable flavor. A most profitable variety to grow for market as it grows very rapidly and is of extra large size. It is very productive and of superior quality. Pkt., 5 cts.; oz., 10 cts.; 4 lb., 25 cts.

Golden Hubbard

An elegant Winter Squash. Flesh deep golden yellow, much richer in color than Hubbard, fine grained, cooks very dry and is of excellent flavor. In keeping quality it has no superior. Its productiveness combined with its sweet rich flavor, attractive color and shape, are bound to make it a popular fall and winter variety. Golden Hubbard is a sport from the well known old Hubbard, which it closely resembles in every respect except in color, which is a bright golden orange. Pkt., 5 cts.; oz., 10 cts.; 1 lb., 25 cts. in color, which is a 10 cts.; 4 lb., 25 cts.

NEW DELICIOUS

New Delicious

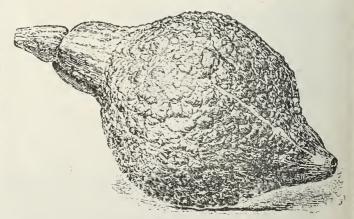

This is one of the best flavored Squashes in existence. In thickness of flesh it surpasses nearly every variety. The color is a dark orange. For table use no other variety compares with it in compactness of flesh, dryness, sweetness, and exceeding richness of flavor. It is a fall and winter squash. The fruits vary in form and color but are uniformly delicious in flavor. Pkt., 5 cts.; oz., 10 cts.; 2 lb., 25 cts., postpaid.

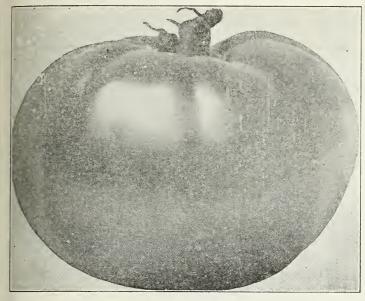

Golden Bronze

Another good winter Squash. The fruits are oval in form, thickest at the blossom end; skin dark grayish green, deepening to bronze green when ripened. Flesh thick deepen orange yellow in color, fine grained and exceptionally sweet in flavor. It is early in maturing, a good keeper, and yields a large supply of fruits of uniform size and appearance. Fruits average from eight to ten pounds each. Pkt., 5 cts.; oz., 10 cts.; 1 b., 25 cts.; lb., 75 cts.

Improved Hubbard

This is the old standard Squash, now grown throughout the country. Flesh is deep golden yellow and fine grained, and whether boiled, steamed or baked, it is always richly flavored, sweet and dry. The vines are strong, of luxuriant growth and very productive, yielding large, heavy squashes weighing from 10 to 25 pounds each. The color of the rind varies somewhat, but the color and quality of the flesh is fixed and unchangeablealways a deep golden yellow or orange. If properly stored it will keep until spring. Pkt., 5 cts.; oz., 10 cts.; 4 lb., 25 cts.; lb., 80 cts.

JACK ROSE

Tomatoes

Our Tomato seed is northern grown and saved from selected fruits, which were grown from the very best stocks obtainable. There are many varieties but we are offering only the very best. It is folly to use so-called "cheap seed" when a few ounces will plant an acre.

· Jack Rose

Next to Fairfield First it is the EARLIEST RED TOMATO IN THE WORLD. It is from 3 to 5 days earlier than Earliana, which means much additional profit when planted for market, as every trucker strives to have the earliest tomatoes. The vines are vigorous growers and are well supplied with heavy foliage which protects the fruits from the sun. The fruits are smooth, solid and of good size, some measuring 4 inches in diameter. It is almost all solid meat, producing but a very small quantity of seed and for this reason the seed will always be expensive. The later fruit on the vines is just as large and solid as the first.

If you want an aboundant supply of large, solid, fine flavored, rich colored, meaty Tomatoes do not fail to order JACK ROSE. Pkt., 10 cts.; oz., 40 cts.; 1 lb., \$1.00.

Golden Dwarf Champion

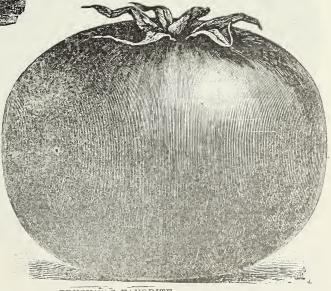

The famous Golden Dwarf Champion owes its wide popularity to its stiff, vigorous, upright growth, with fruit well above the soil, its large fruit and beautiful color, and to the earliness with which it reaches maturity. Plants are bushy and compact, with heavy, dark green, potato-leaf foliage. The tomatoes are always smooth, round and solid, and of a beautiful lemon color. Nothing makes a more tempting dish than red and yellow tomatoes sliced together. Pkt., 5 cts.; oz., 25 cts.; 1 lb., 80 cts.

Trucker's Favorite

The finest large fruited purple Tomato. Very uniform in size and shape. thick meated and solid; one of the largest Tomatoes grown. The fruits are of a beautiful purplish red or pink color, always smooth and fleshy. They hold their size to the very last picking and ripen well to the stem. Vines are of strong, vigorous growth, ripening the first fruits early. The vines are not subject to blight or rust, and produce enormous crops until killed by frost. Delightful in quality and flavor and unexcelled for slicing or cooking.

As a dependable main crop pink Tomato Trucker's Favorite can't be beat. Pkt., 5 cts.; oz., 30 cts.; 4 lb., 80 cts.

TRUCKER'S FAVORITE

UNG SEED CO., RANDO

TOMATOES—Continued

Magnificent

Fourth, the fruits are large, solid and smooth, easily prepared for market on account of its perfection.

fection.

Fifth, the plants are hardy, can be set out early and not be injured by the cold if protected from frost.

Sixth, the fruits ripen early and the later fruit on the vines is just as large and perfect as the first

The color is bright red: skin always smooth, free from cracks and blemishes.

Flesh is of exceptional fine flavor.

Pkt., 10 cts.; oz., 30 cts.; 1 lb., \$1.00, postpaid.

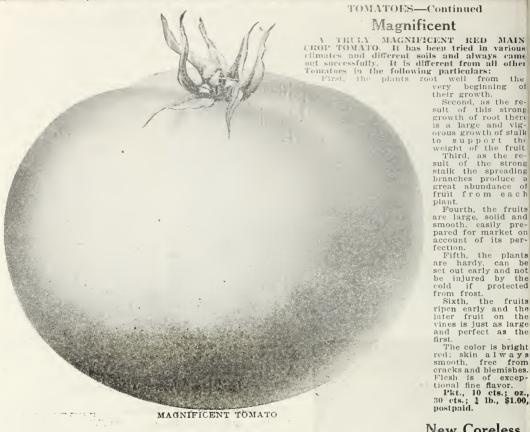

New Coreless

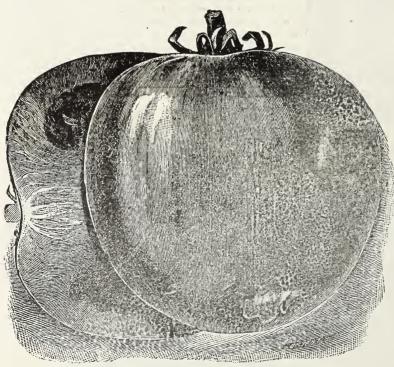

A LARGE, MAIN CROP. GLOBE SHAP-ED, BRIGHT RED VA-RIETY. Its shape is almost round, being about the same diameter each way. The depression at the stem end has been almost eliminated, making it the most profitable variety for canning. It is immensely productive, clusters of four to seven fruits are produced at six to eight inches apart along the stem.

All the fruits are of marketab'e size, and many of them are quite large-12 to 15 ounces.

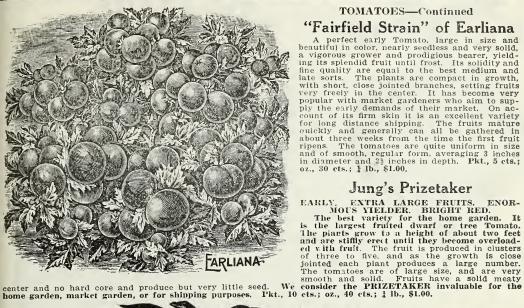

A good slicing variety, the seed cells being surrounded by bright red, heavy, meaty and delicious flesh. Its color is bright red and the fruits ripen all over and all at the same time. Always free from green core. Every gardener should give this new Tomato a trial.

Pkt., 10 cts.; oz., 35 cts.; 1 lb., \$1.00.

NEW CORELESS TOMATO

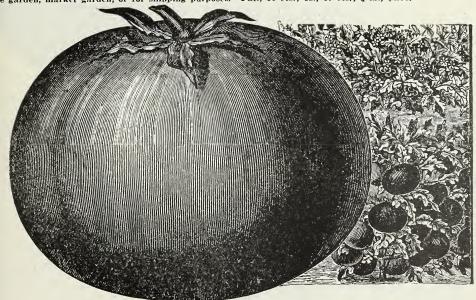

TOMATOES—Continued

"Fairfield Strain" of Earliana

A perfect early Tomato, large in size and beautiful in color, nearly seedless and very solid, a vigorous grower and prodigious bearer, yielding its splendid fruit until frost. Its solidity and fine quality are equal to the best medium and late sorts. The plants are compact in growth, with short, close jointed branches, setting fruits very freely in the center. It has become very popular with market gardeners who aim to supply the early demands of their market. On account of its firm skin it is an excellent variety for long distance shipping. The fruits mature ouickly and generally can all be gathered in about three weeks from the time the first fruit ripens. The tomatoes are quite uniform in size and of smooth, regular form, averaging 3 inches in diameter and 23 inches in depth. Pkt., 5 cts.; oz., 30 cts.; 1 lb., \$1.00.

Jung's Prizetaker

JUNG'S PRIZETAKER

TURNIPS Purple Top Strap Leaf

Our packets each contain 1 ounce of seed.

The most popular sort. A general favorite with all, and more largely grown than any other turnip. Rather flat and of medium size. The color is purple above ground, white below; flesh white, fine grained and tender. Leaves short, narrow and erect. A heavy cropper and an excellent keeper. Does well sown either broadcast or in drills, and will form good sized bulbs in seven or eight weeks. Pkt. 5 cts.; oz., 10 cts.; 1 lb., 20 cts.; 1 lb., 50 cts.

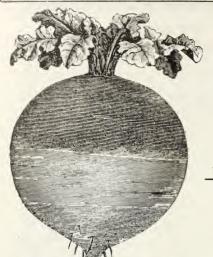

White Flat Dutch

A very popular sort for either table use or for market. The roots are of medium size, very handsome, smooth and of clear ivory white both inside and out. The flesh is fine grained, tender, and of mild, sweet flavor. It is one of the best varieties for the family garden, as, in addition to the heavy crop assured by its adaptability to close planting, it will be found to be the best sort for spring ase. Pkt., 5 cts.; oz., 10 cts.; ½ lb., 20 cts.; lb., 50 cts., postpaid.

STRAP LEAF

IMPROVED PURPLE-TOP

YELLOW.

RUTABAGA

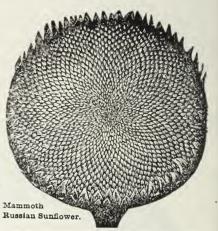

Improved Purple Top Yellow

A hardy and productive variety widely grown for market and stock feeding. It is of fine quality and keeps perfectly all winter, and even into the following summer. Bulbs are large, smooth, round and solid, with a small tap root. Flesh richly colored, fine grained and very sweet. It is justly held in high esteem for both table and stock feeding purposes. Its shape is well shown in the illustration.

Pkt., 5 cts.; oz., 10 cts.; 1/4 lb., 20 cts.; lb., 50 cts., postpaid.

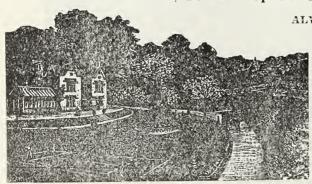

unflower Mammoth Russian

Single heads measure twelve to twenty-two inches in diameter and contain an immense quantity of seed, which is highly valued by all farmers and poultry breeders who have tried it as an excellent and cheap food for fowls. They eat it greedily, fatten well on it, and attain a bright, lustrous plumage and strong, healthy condition better than on almost any other food. It is the best egg producing food known. Every farmer should plant some of the seed in any waste piece of ground, any time from early spring to the middle of July. Four quarts of seed will plant an acre. The seed is also recommended as an excellent food for horses. Oz., 5 cts.; ½ lb., 20 cts.; lb., 30 cts., postpaid. By freight or express: lb., 15 cts.; 10 lbs., \$1.00; 100 lbs., Russian Sunflower. \$6.00.

LAWN GRASS

Fairfield Special Mixed

ALWAYS GROWS, ALWAYS THRIVES. Jardy, Luxuriant, Deep Velvety

Green.

QUANTITIES TO USE.

A standard weight bushel of Blue Grass and Lawn Grasses is 14 pounds.

1 lb. package for 400 square feet; 5 lb. package for 2,000 square feet; 10 lb. package for 4,000 square feet; 15 lb. bag for 6,000 square feet; 25 lb. bag for one-fourth acre; 50 lb. bag for one-half acre; 100 lb. bag for one acre.

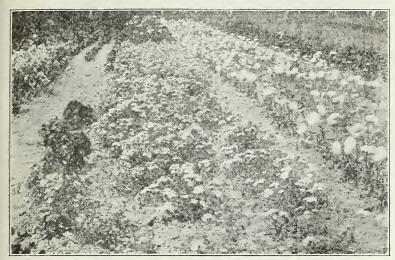

Our mixture combines the very best varieties of grasses suited for the purpose of making a lawn beautiful in appearance, durable and lasting, and which will stand the frosts of winter and the hot sun of summer, showing a deep, rich green at all seasons. The seed used is PURE AND HEAVY and is especially cleaned. This mixture weighs 25 to 27 pounds per bushel, is of strong vitality and makes a quick, healthy growth. One pound of our mixture weighs as much as two quarts of most other seedsmen's brands. Pound, 35 cts., postpaid. Not prepaid, lb., 25 cts.; 5 lbs., \$1.20.

The Products of Jung's Seeds Are UNEXCELLED.

The cost of good seeds is very small when compared to the difference in It is our aim to supply "The Best" not the value of the resulting crops. cheapest seeds.

Jung's Unrivaled Flower Seeds

The same great care and selection governing the growing of our Garden and Farm Seeds is exercised in the growing of our Flower Seeds. If our customers could only see the glorious beds of Asters, Salvias, Phlox,

Sweet Peas and other flowers growing on the Fair-field Farm they would grow more flowers. There are no more satisfactory flowers in the garden than those grown from seed, especially the easily grown and brilliant flowering annuals.

The beautiful shrubs and lilacs, of course, have their place, but are far more expensive than a package of seed which will furnish a large number of plants with usually enough for one's garden and some to spare. While the old fashioned flowers are still popular, new and improved varieties have been developed, with larger and finer blossoms.

FLOWERS GROWING FOR SEED AT FAIRFIELD SEED FARM

Jung's Superb Asters

Asters are our great specialty in the flower seed line and the degree of perfection to which we have brought the strains we are offering is unsurpassed. We are the largest growers of ASTER SEED in the NORTHWEST. No other flower can approach the Aster in beauty, color, form or profusion of bloom. They are very lardy, easily grown and may be had in bloom from early summer until hard frosts. We are ASTER SPECIALISTS and our seed of these grand flowers is absolutely unexcelled.

Rose King

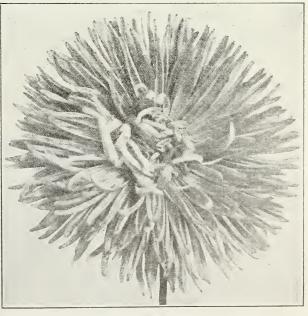

This is a popular variety, vigorous in growth, with long, stiff stems and luxuriant foliage of richest green. In form the flower is entirely distinct; petals resemble the quilled varieties, but are much larger and broader, those in the center being twisted, curled. and incurved, completely covering the crown. The bloom is round, full and very large, many of the flowers measuring from four to five inches across. Color is a soft violetillac. Pkt., 10 cts.

Violet King

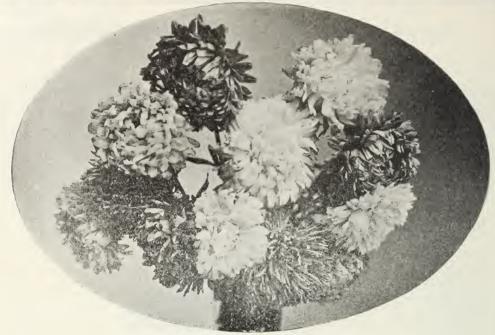

The same as Violet King except in color. It is yigorous in growth, with stems frequently two feet in length, flowers as large as saucers, crowns completely covered, a good keeping variety and unsurpassed for cutting. Petals are strong and stiff. Blooms from midsummer until frost. Pkt., 10 cts.

Crego Aster

A new variety. The plants are vigorous and productive of from ten to fifteen strong flower stems, frequently two feet or more in length. The flowers are large and full with the crowns well covered. The petals are of medium width but very long, and curl across each other so fluffily as to enhance the beauty and attractiveness of the flower, and increase its value as a long keeping and good shipping variety. White shell pink and lavender, 10 cts, per pkt.; one pkt. of each for 20 cts.

VIOLET KING

JUNG'S INTERNATIONAL MIXED ASTERS

Jung's International Mixed Asters. The finest mixture of ASTERS ever offered by any very best varieties and contains practically every shade known in Asters, such as pure white, white changing to rose, shell pink, rose pink, red, carmine, violet, crimson and purple. It includes New Fairfield, American Beauty, Vick's Mikado, Violet and Rose King, Chrysanthemum Floweted, Innocence, Invincible, Late Branching and many other varieties. It is truly an unsurpassed mixture of these, the most showy and beautiful of all annuals. Pkt. of 200 seeds only 10 cts.

Jung's Early Upright Aster.

The plants grow compactly, with long, erect flower stems, quite free from side shoots, and yield from eight to twelve large flowers. The blooms of this variety are cosiderably above the average in size, and have a solid, compact, ball shaped appearance. The crowns, or centers, are completely covered. Petals are of medium length, quite broad and of good substance. They start to bloom early and continue until well into the season. White and Lavender-Pink. Each 10 cts. per pkt. One pkt. each color, 15 cts.

Jung's Innocence Aster.

The earliest Aster in cultivation today. It is a few days earlier than Queen of the Earlies, while for beauty of flower it equals the later sorts. Instead of running to leaves the entire energy of the plant seems given to the production of eight or ten giant, fluffy flowers. The plants are of sturdy, branching habit, 15 to 18 inches tall, and bear their handsome, snow-white flowers on long stems, making it invaluable for bouquets. The flowers measure three to four inches across, which, with their long recurved petals give them a graceful appearance. Pkt., 10c.

Chrysanthemum Flowered Aster. This grand new Aster is in a class by itself, being formed altogether different than any other variety. The flowers are truly gigantic in size, and closely resemble Chrysanthemuns, hence their name. Well grown flowers measure five inches across and are borne on long stems, making them invaluable for cut flowers and bouquets. Petals are long and twisted. The color is a very delicate sea-shell pink. The plants are of strong growth and carry many blossoms. Pkt., 10 cts.

Mikado Shell-Pink.

Petals are narrow, very long and gracefully reflexed. The outer petals show to their full extent, while gradually towards the center they bend magnificent disorder as to make the fullest Aster we have ever seen. In color it is the most exquisite shade of pink. In growth it is unusually vigorous. The average plant carries a dozen long, strong, graceful stems, each crowned with flowers from four to six inches in diameter. Blooms from the end of July until frost. Pkt., 10 cts.

Jung's Quality Aster Collection

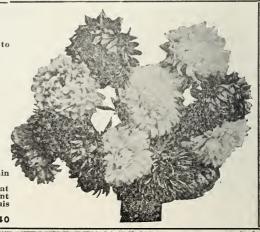

The following seven grand varieties will be sent to any address postpaid for only 30 cts.

Crego Pink Chrysanthemum Flowered Innocence Violet King

Catalogue Value .70

These packets are Regular, Full Sized and contain only the choicest of seed.

We make this exceptional offer to convince you that Jung's Asters are in a class by "themselves." We want every one of our customers to take advantage of this

BALSAM Defiance Mixed

Defiance Mixed

A favorite quick growing annual. The plants form symmetrical, well branched, erect bushes about two feet high. The branches are well covered with the beautiful doubt flowers. The colors include white, rose, red, scarlet, crimson, purple, lilac and violet. Although such generous bloomers, they are shy seeders. This variety is distinctly Camellia flowered. Our strain of these is unsurpassed for size of blooms, doubleness and beauty of flower, Pkt., 5 cts. Pkt., 5 ets.

CANDYTUFT

Empress

Candytufts have long been among the most popular belating annuals. This is the largest flowered, pure white variety in cultivation. Strong, free flowers, from six to eight formed branches. Excellent for bedding and ribbon borders, remaining in b'oom throughout the summer. Pkt., 5 cts.

BALSAM

COSMOS Early Summer Flowering

Grace and brilliancy are the characteristics of this pretty annual. The beautiful flowers with their deep, broad petals rise from a cloud of fine, feathery foliage. By starting the seed of this variety early they will commence to blossom in June and continue to bloom until cut down by frost. They are of compact, bushy growth, about four feet high, with flowers fully as large as the old variety. The flowers are of various shades, ranging pure white to purplish crimson. Both foliage and flowers are unsurpassed for bouquets and vases. They are easily raised and make a grand display. It is admired by all. Pkt., 5 cts.

DAISY. German Double Mixed

German Double Mixed. These famous little double daisses are held in universal esteem. They bloom profusely especially in cool weather. They are easily grown from spring sown seed and come into bloom in a short time. They do best in a cool, shady place. Height 6 inches. Pkt., 5c.

BURBANK'S

This is the new-

COSMOS

An improved type, producing large flowers, very double, of various colors, shades and markings, which are borne on long spikes like immense Hyacinths. Can be easily grown in the open ground. All colors, mixed, pkt., 5c.; 2 pkts., 10c.

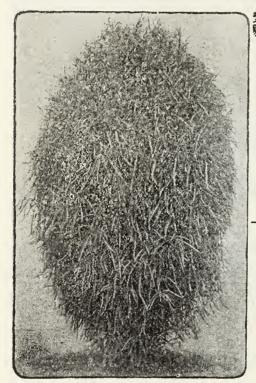

DIANTHUS. Fairfield Finest Mixed

These hardy annuals may be ranked among the fairest gems of our flowers, as few can equal them in beauty or profusion of blooms. They are of the richest and most varied colors. The plants spread rapidly, and make ornamental masses of growth. They may be sown in the open ground when danger from frost is over, and in a few weeks they are masses of bloom, continuing so until frost. Our mixture includes the best single and double sorts. Pkt., 5 cts.

DIANTHUS. Fireball

Flowers are double crimson and their beauty is scarcely surpassed by any other flower. Plants grow dwarf and bushy. It is fine for bouquets and cut flowers. Pkt., 5 cts.

KOCHIA

CALIFORNIA POPPY

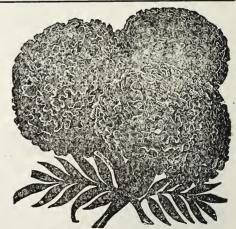

CALIFORNIA POPPY Golden West

Extremely handsome, low and quick growing annual plants, with finely cut foliage and cheerful blossoms. The flowers are light canary yellow with a large rayed blotch of deep orange at the base of each petal. Plants are about one foot high and easy to grow. They are ornamental and bloom until killed by frost. The blooms are beautiful and variously formed. Pkt. 5 cts. frost. The Pkt., 5 cts.

Kochia Tricophylla

A GRAND HEDGE PLANT. An annual hedge plant which has become very popular. It makes a beautiful specimen plant or grown in hedge form it is equally attractive. It grows about three feet tall, forming a perfect pyramidal-shaped cypress bush, with fine, feathery, light green foliage. About the beginning of September it changes to a lovely crimson hue and for this reason is often called "Burning Bush." Its stately form is shown in the illustration. One of the easiest plants to grow. Pkt., 5 cts.

Marigold-

MARIGOLD. Lemon Ball

This extremely showy annual has become a great favorite everywhere on account of its very easy culture and most beautiful flowers, which are quite unique in color and immediately attract attention both in the garden and in bouquets. The hardy plants, of neat, branching habit, grow from fifteen to twenty inches high and are exceedingly profuse in flowering. The extra large, round, double flowers are of a clear canary yellow. The petals are heavily rolled and are crowded so closely together as to appear lachinated. Pkt., 5 cts.

Nicotiana, Sanderae Hybrids

COBABIGHTEO

JAPANESE MORNING GLORIES

MORNING GLORY Imperial Japanese

The robust vines attain a height of from 15 to 20 feet. The foliage is luxuriant, distinct and varied, green, silvery and yellow leaves; many are mottled light and dark green, white and gray. Their charm lies in the entrancing beauty and large size of the flowers; they measure from three to four inches across. The colors of the flowers, shadings and markings are limitless. Some flowers are of deep, rich, velvety colors, others daintily tinted and shaded. There are reds from soft rose to crimson and garnet; daintest blue to purple; snow-white to silver-gray. Some are striped, blotched and spotted; others have magnificent edges and throats. They are easy to grow and quick to come into bloom. Pkt., 5 ets.

Everblooming Annual Hollyhocks

The diversity of forms and colors among the flowers affords many delightful surprises. Some plants produce densely double flowers without guards, others with guard petals; there are semi-doubles, then single sorts with double centers, others flounced, and all flowers are usually very large, some measuring five inches across. In colors there is also great variety, some richly brilliant, others dainty and exquisite, ranging from black, maroon, wine red to orange, pink and white. The flower buds are borne in clusters which vary in maturity from the developing bud to the expanding flower; which accounts for the remarkably long blooming period. They flower profusely until killed by frost. Pkt., 5 ets.

Tom Thumb Mixed NASTURTIUM

This mixture is composed of choice flowering varieties and is properly blended. They are of dwarf, compact, rounded growth, about nine inches in height and slightly greater in diameter. They resist heat and drought, grow vigorously and flower freely all summer and fall. Flowers are of many different colors, and are shown to great advantage among the richly variegated foliage. For summer flower beds nothing can surpass them. Seed sown in the open ground in the spring will produce plants that commence blooming during early summer and continue until frost. They are of the easiest culture and require very little attention. Pkt., 5c.; ez., 10c.

NICOTIANA

SANDERAE HYBRIDS. These flower from early summer until late in autumn. Their beauty is beyond description, flowers produced being purple, snow-white, dark and light red, violet, salmon, crimson, pink and various other shades. It is a very easily cultivated plant, thrives in any soil, either in pots, boxes or in the open ground. Flowers are nearly as large as a petunia, with tubes five inches long, and many of the flowers are delightfully scented. You should not miss this excellent plant, as it is good for summer, fall or winter blooming. Cut blooms last well, opening freely in water. All colors, mixed, pkt., 5 cis.

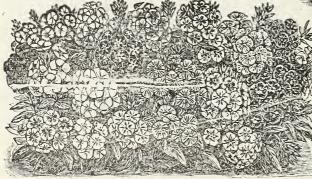

EVERBLOOMING HOLLYHOCKS

DWARF NASTURTIUMS Brilliant Beauties

GIANT FLOWERED TALL NASTURTIUMS

The plants are of strong, vigorous growth, erect habit and beautifully rounded form. The leaves on different plants range from light green to a rich purplish tint. They are of quick growth, begin to bloom early in the summer and continue to flower profusely until killed by frost. So greatly diversified are the colorings that it seems almost impossible to find two plants bearing flowers alike. The flowers are not only wonderfully brilliant but also of large size. It makes an excellent variety for bedding. Pkt., 5 cts.; cz., 15 cts.

DWARF PHLOX

New Dwarf Phlox. Nana Compacta

This splendid race of dwarf annual Phlores cannot be overpraised for brightness and beauty. The plants are always lavishly covered with large flowers of the most brilliant lues.

Nothing better for bedding purposes is listed in this catalog.
They succeed everywhere, and are in universal favor for summer flowering purposes. Bushes are dwarf and compact, six to
eight inches high, forming dense masses of bloom all summer.
They are very desirable for edgings and ribbon beds and useful
for pot culture. The colors include pure white, deep and showy
red, rose with white eye and many other shades. They are
quite hardy and are to be treated as annuals. Pkt., 5 cts.

MIGNONETTE. Bismark

Ore of the finest, being of strong growth, healthy and deep rooting. The average spikes of flowers are immense, measuring 6 to 8 inches long by 2½ inches in diameter, and are compactly filled with giant florets, measuring one-half irch across and packed full, even in the center, with anthers. The color of the bright red florets is strengthened on account of the density of the florets and spikes, thus presenting almost solid columns of brilliant red, effectively contrasted against the healthy, bright green foliage. The fragrance is rich and powerful. Pkt., 5 cts.;

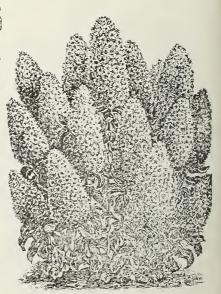

Tall or Climbing Nasturtiums

GIANT FLOWERED MIXED.

This mixture is absolutely unsurpassed. Nothing can excel the wealth, richness and variety of these Nasturtiums for trellis brush or rockery planting, nor surpass them in freedom and profusion of bloom. They throw out running shoots that can be trained upon strings or wires, or can readily be made to climb ordinary fences or wire netting. On good soil they will grow eight feet high. Single flowers measure four inches across. Flowers are of various shades. Pkt., 5c.; oz., 15c.

BRILLIANT BEAUTIES

BISMARK MIGNONETTE

Special Mixed Mignonette

Contains seed of all the standard sorts and latest introductions, there being red, yellow and white colors. Pkt., 5 cts.

Large Flowering Mixed

This mixture is composed of the finest large flowering varieties and contains some of the richest colors. The plants make strong growth and bloom freely. Pkt., 5 cts.

Phlox Drummondii Grandiflora Mixed

THE BEST OF ALL BEDDING PLANTS
This superb strain is notable not only for variety and brilliancy of colors, but also for the perfection and size of the flowers. Many of the single flowers are so large that they will nearly cover a fifty cent piece. The colors range from pure white to the deepest blood purple or crimson, while the clear eye of some of the flowers is peculiarly marked.

In good, tich soil they will

marked.

In good, tich soil they will grow 18 inches high, and for a mass of splendid colors no flower will give a more satisfactory return for so little cost. The flower type is shown in the illustration.

No garden should be without a bed of these, the most showy of all dwarf growing annuals. Pkt., 5 cts.

Pansies

Jung's Giant Fancy Mixed

This "Fancy Mixture" contains seed of the gest, richest and handsomest Pansies known to

This "Fancy Mixture" contains seed of the largest, richest and handsomest Pansies known to the horticultural world.

The well formed, expanded flowers are uniformly of the largest size and of fine substance; they are borne on long, stiff stems well above the heavy, deep green foliage.

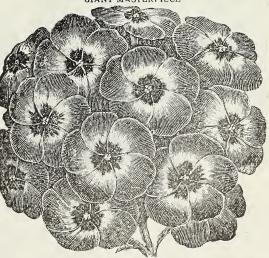

The colors are rich and varied, such as white, cream, yellow, deep orange, mahogany, claret, rose, reddish bronze, lavender and light blue; each petal is distinctly blutched. The compact, rounded plants readish bronze, lavender and light blue; each petal is distinctly blotched. The compact, rounded plants are of sturdy habit and so deep rooted that they bear gigantic flowers profusely and continuously. The petals are of thick, heavy substance, large size and various shapes. Pkt., 15 cts.

Giant Masterpiece

This giant Pansy is remarkable for having its petals waved or folded, giving it the appearance of a double flower. The truly giant sized flowers are of the most striking character; the petals being of a rich, velvety substance and heavily ruffled. The colors are mainly dark rich shades, bordered, blotched or marked in ray-like veinings. The mammoth size, richness and beauty of colorings, combined with the distinctly frilled or ruffled character of the petals, makes the Masterpiece one of the most interesting novelties in pansies ever developed. Pkt., 10 cts.

GIANT MASTERPIECE

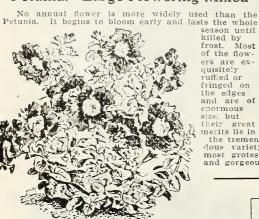

PHLOX DRUMMONDII

PETUNIA. Desiance Mixed

This strain bears grand, substantial flowers of the largest size in profusion. The flowers frequently measure five inches across, while the colors are Indescribably rich and varied. Most of the flowers are be utifully fringed and have open throats. All are distinctly velocity especially in the throat portion, and in many the throat is darker than the outer portion of the petals, imparting a rich, velvety effect. The foliage is large and heavy and very dark green in color. Some of the colors are rich and gorgeous, while others are of lovely, delicate shades. Pkt., 15 cts.

Petunia. Large Flowering Mixed

PETUNIA

of the flowers are ex-quisitely ruffied or fringed on the edges and are of enormous size, but their gre their great merits lie in the tremen-

DEFIANCE PETUNIA

dous variety of colors, markings, blotches and stripings, in the most grotesque and beautiful combinations. Some colors are rich and gorgeous, others are of levely, delicate shades. Pkt., 16 ets.

Iceland POPPIES

The Iceland Poppies are perennials, blooming the first season from seed. The fragrant, elegant, crushed-satin-like flowers are produced continually from June to October. They are of graceful, neat habit, with bright green, fern-like foliage, formed in tufts, from which issue slender stalks, about 12 inches long, bearing their brilliant flowers in endless profusion. Their long stems and lasting qualities make them invaluable for cut flowers. The flowers last fully a week if cut as 500n as open. Pkt., 5 cts.

SHIRLEY POPPIES

Re-Selected Shirley Poppies

The most showy of all Poppies. A bed of them in your garden is a sight to behold. Flowers about three inches across, exceedingly graceful and elegant; the colors are pure, soft and varied and range from pure white, blush rose, delicate pink and carmine, to orange scarlet and bright, sparkling crimson, occasionally blotched with white. All who admire the delicate beauty of the Shirley Poppies will be delighted with this re-selected strain of the finest colors and most charming markings. Few flowers can show such a grand array of colors. Pkt., 5 cts.

Double Featherball Poppies

These double fringed annual Poppies are very beautiful; they belong to the carnation-flowered type, the large flowers having the same globe shaped formation, with gracefully fringed petals like big balls of slashed tissue paper. Plants are of branching, stocky growth, 15 to 18 inches high, each plant carrying several of these exquisite flowers. The great variety of coloring ranges from the most gorgeous down to shades of pure white. They are of the easiest culture. Mixed colors. Pkt., 5 ets.

Fairfield Favorite Mixed **Poppies**

This new mixture is made by ourselves from the choicest varieties as grown at Fairfield. It contains seed of the standard sorts and is sure to please. Pkt., 5 cts.

SUNFLOWER Chrysanthemum Flowered

Grows seven feet, Perfectly double; the color is the brightest golden yellow. The plants branch and afford fine, long, stout stems for cutting. This gigantic Sunflower will be of great value for the hardy garden and herbaceous border. The flowers are so perfect in form that they resemble Chrysanthemum flowered Asters with long stems. This is the very best variety. Pkt., 5 cts.

SUNFLOWER

SWEET WILLIAM Fine Single Mixed

Well known, hardy, free blooming perennial plants. They produce masses of lovely, brilliant, sweet scented flowers through a long period, making a splendid effect in beds. The plants grow about one foot high and form fine clumps. It produces very large florets in great profusion and in a great variety of colors.

Pkt., 5 cts.

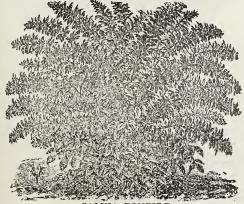

DOUBLE FEATHERBALL

SALVIA. Bonfire

A GRAND BEDDING PLANT. One of the grandest varieties in cultivation. A bed of them will surpass the finest scarlet geraniums in brilliancy and continuous bloom. The plants are compact growers, attaining a height of about 30 inches. Single plants sometimes carry 200 spikes, measuring from 8 to 12 inches in length. Flowers are a brilliant, dazzling scarlet. From the time they first begin to flower the plants are never out of bloom until killed by frost. We know of nothing that will equal the gorgeous effect of a row or bed of these Salvias when in full bloom; the waving masses of glistening scarlet against green surroundings of lawn or foliage is matchless. Pkt., 10 cts.

SALVIA. Splendens

"The most dazzling scarlet flower." The handsome bushes are three feet high and as much in diameter when of full size. Single plants often bear 100 spikes of flowers, each about eight inches long. It is excellent for filling large beds or borders in the garden. It blooms continuously from early in August until frost. Nothing is equal to a bed of these flowers which for months is a blaze of intensely brilliant scarlet. Pkt., 5 cts.

SALVIA BONFIRE

Marvel of Peru Finest Mixed

SALVIA SPLENDENS

Also known as Four O'clock. This is a well known and deservedly favorite flower. Produces larger convolvulus-like flowers; white, yellow, crimson, blue, striped, etc., The flowers open late in the afternoon and elose next morning. Makes a nice hedge if set a foot apart. Pkt., 5 cts.

VERBENA

Fairfield Famous Mixed

A choice perennial, 6 to 12 inches high, indispensable for bedding purposes. The average trusses measure 9 to 12 inches in ci. cumference and the individual florets on properly grown plants over one inch across. They bloom freely, are vigorous in growth, and contain beautiful new colors and shades. For garden beds and massing these Verbenas are unrivaled; flowers of the most billiant colors produced continually from spring until late in the fall. Pkt., 5 cts.

Gigantic "Orchid Flowered" SWEET PEAS

THE GIANTS OF THE SWEET PEA
FAMILY. These new Sweet Peas are of
enormous size, which, together with their
charming colors and waved or fluted appearance, entitles them to be put in a
class by themselves. The flowers are distinct in having the outer edges of the
wings and standards waved or fluted as the
tissue is so full that there is not room for
growth, and should stand at least eighteen inches apart. These

it to lie flatly expanded or smoothly rolled. Some of the flowers grown on our farm measured two and inches across. The plants are vigorous in growth, and should stand at least eighteen inches apart. grand Sweet Peas were the delight of everybody who saw them growing at Fairfield.

Beatrice Spencer

The ground color is white, tinted with soft pink and buff on the standard, while each wing has a blotch of brighter pink near the base. Flowers are of large size. Stems long and wiry. Pkt., 10 cts.

Othello Spencer

The long stems are thick and carry well either 3 or 4 fine, large flowers of a deep maroon. It is a strong grownne, large nowers of a deep maroon. It is a strong grow-er and flowers most profuse-ly. Blooms are beautifully waved and crinkled both in standard and wings. Pkt., beautifully

SPENCER SWEET PEAS AS GROWN AT FAIRFIELD

Irue Countess Spencer.

It combines all the good qualities of the best Sweet Pea. Color is a delightful soft pink, shading a little deeper at the edge of standard are just wavy enough to give it a graceful, flufty appearance. It is fragiant, begins to bloom early, and continues until late in the season. Pkt., 5c.; oz., 20c.

Superfine Mixed SWEET PEAS

This is not grown in mixture but is carefully blended of the finest large flowering varieties, including some of the most beautiful recent introductions. For flowers of delicate colors, varying from pearly white to the richest reds and purples, this mixture leads, because it is the result of selecting, year after year, seeds of the choicest flowers. It will surely give satisfaction. Pkt., 5 cts.; oz., 15 cts.; 1 lb., 25 cts.

THE GREATEST BARGAIN IN SWEET PEAS IS LISTED ON PAGE 9. DO NOT FAIL TO INCLUDE SAME IN YOUR ORDER.

Jung's Northern Grown FARM SEEDS.

The Farm Seeds which we offer are uniformly of the VERY BEST grade, while the EARLINESS and TREMENDOUS PRODUCTIVENESS of NORTHERN GROWN SEED needs no comment.

The greater part of these seeds were grown on our Fairfield Seed Farm. They were grown especially for seed, are thoroughly recleaned and are FREE FROM FOUL WEEDS. This ought to appeal to every farmer who wishes to keep his farm free from foreign weeds.

The prices quoted were the prevailing values when this catalog went to press, Jan. 1, 1915, we will hold to same as long as possible. It is a good plan, when ready to purchase, to send for samples and prices.

BAGS FREE, remember this when comparing prices. ORDER EARLY.

Swedish Select OATS.

The Most Widely Grown Oat In America.

NEXITO WISCONSIN PEDIGREE THIS IS THE FINEST, STRONGEST, HEAVIEST, LARGEST YIELDING MOST PLUMP WHITE OAT EVER GROWN IN AMERICA.

Prof. R. A. Moore, who for four years tested it with 36 other varieties, pronounced it the most satisfactory of all, ranking first in weight, stiffness of straw and thin hulling qualities.

The great root development is one of the chief characteristics of the Swedish Oats which enables it to withstand drought better than any other variety. The straw is coarse, and is noted for its power to withstand lodging.

It is early; the kernels are large and thick, white, plump and heavy, weighing from 36 to 40 pounds per measured bushel, with an except-

ionally thin hull. This variety seems to be well adapted to high land, the best results being obtained on clay loam. We have a fine bright stock of this variety, free from smut. Lb. 25 cts.. postpaid.

By freight or express: Pk. 25 cts.; bu. 90 cts.; $2\frac{1}{2}$ bu. \$2.10; 10 bu. \$8.50. Samples sent on request. Write for prices if wanted in larger quantities.

WISCONSIN PEDIGREE BARLEY.

THE BARLEY THAT ALWAYS WINS FIRST AT ALL THE GRAIN SHOWS

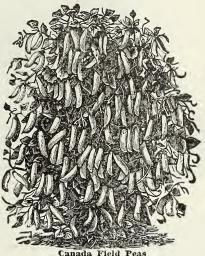

It has been thoroughly tested at the Wis. Experiment Station and throughout Wisconsin and proved to be superior to any other variety. It will outyield all others, has the stiffest straw, and the plumpest berry. The heads are of great length and a remarkable characteristic is that all the kernels are uniform in size. This barley will yield from five to fifteen bushels more per acre than any other, and it will pay any farmer handsomely to buy seed enough to sow all his barley land. Under normal conditions the kernels are bright and white, making it most attractive. Lb. 25 cts., postpaid. Ey freight or express: Pk. 40 cts.; bu. \$1.25; 2 bu. \$2.40: 10 bu. \$11.50.

White Canada FIELD PEAS.

This is a standard variety of Field Peas and needs no special description. This variety is extensively grown in Canada, Wisconsin and other pea growing sections and has a large sale. They grow from three to four feet high and are very productive.

Excellent for hog pasture or when fed green to milch cows. Also of great value when sown with oats for hay. Pk. 75 cts.; bu. \$2.75. Samples free. Write for prices if wanted in larger quantities.

Jung's Northern Grown SEED CORN.

Our entire stock of Seed Corn, with the exception of Flint, was grown on our Fairfield Seed Farm and nearby localities and a finer bred lot of seed born is hard to find. It is all carefully selected, fire-dried, of high germination, and sure to grow We have a large stock but GOOD SEED CORN will be in great demand this spring so we will advise you to ORDER EARLY.

Early Longfellow FLINT CORN.

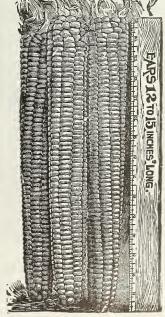

The most popular of all flint varieties. It is a beautiful eight-rowed flint, with straight slender ears twelve to fifteen inches long. Kernels are large and wide, cob very small. Ripens in 75 to 80 days and is very prolific, The stalks grow about six feet high and make excellent fodder.

Golden Glow. Wis. No. 12.

A new early yellow dent for Central Wisconsin and similar latitudes. the corn many have been looking for. It is a little earlier than Silver King and Clark's Yellow Dent and yet large enough to make it a profitable variety for general It matures as far north as Central Wisconsin and yields big crops of Golden Glow is a pure golden yellow corn, most attractive in arge-sized ears. color and appearance. Ears are fairly large, averaging, about eight inches in length, symmetrical in shape, slightly tapering at the outer ends and very free from a tendency to flintiness; stalks are large and strong with abundant foliage which makesit'a very desirable fodder or silo variety. This is strictly a Wisconsin bred variety and was brought out by Prof. R. A. Moore, his idea being to produce an early variety with large ears and deep kernels and he has succeeded well. It is Prices—on the ear: ½ bu. \$1.70; bu. \$3.25. a heavy vielder. ·Shelled: Pk. 80 cts.: bu. \$3.00. Sample ear by mail 25 cts., postpaid.

Wis Early White Bent as grown by the Originator

Wis. Early WHITE DENT.

We have often been asked to supply an early white dent corn but until now were un-

early white dent corn but until now were unable to offer it.

This variety originated with Mr. W. B. Meyers of Col. County, who has been growing and selecting it for 10 years. It is fully as early as Wis. No. 8 and if anything it produces a larger ear and stalk, it has never failed to ripen or produce a good crop. The corn when on the ear is a pure silvery white but when shelled the kernels show a bright golden tinge. If you want show a bright golden tinge. If you want a strong growing, heavy yielding, early white dent corn, then plant this variety. Our stock is limited. Prices—On the ear ½ bu.\$1.90; bu.\$3.30.
Shelled: Pk. 90 cts.; bu.\$3.00. Sample ear by mail 25 cts., postpaid.

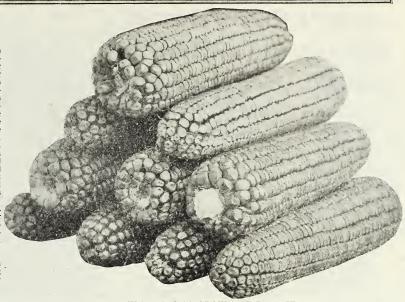

Silver King. Wis. No. 7. THE LEADING VARIETY OF CORN IN WISCONSIN TODAY. Silver King leads the list today of all-round good varieties of corn adapted to the latitude of Southern Wisconsin. Equally valuable for Northern Iowa, Southern Minnesota, South Dakota, Northern Illinois, Ohio and Indiana as well as for Wisconsin. Ears are just the right length, averaging 8 to 9 inches, always filled out clear to the tips, and are very uniform in size and type. The corn is pure snow-white in color, with good long kernels set compactly in straight rows. It is a strong grower, early enough to mature as far north as south central Wisconsin, and is especially adapted to resist cold weather. The stalks are large and strong with abundant foliage making it a very desirable silo or fodder variety. It has a decided double ear characteristic, one reason for its large yield records. We have a fine well bred stock. Prices—on the ear: ½ bu. \$1.80; bu. \$3.25. Crates free. Shelled: Pk. 80 cts.; bu. \$3,00. Sample ear 25 cts., postpaid.

Wis. No. 8.

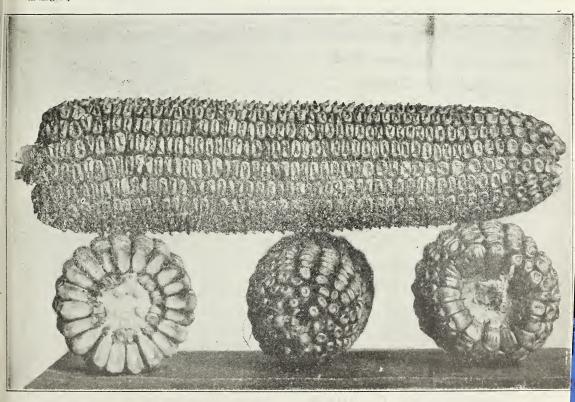

Early Yellow Dent.

This is the corn for Northern This is the corn for Northern Wisconsin an similar latitudes. The commanding points for northern planting are: its earliness, its enormous productiveness, its adaptability to a great variety of soils and climates. It fully matures on the shores of Lake Superior and ripens anywhere in Wisconsin. Ears average 7 to 8 inches in length, with long kernels, very uniform in 7 to 8 inches in length, with long kernels, very uniform in type and color. It grows a medium-sized stalk with good leaf development. It will thoroughly mature in about 90 days on favorable soil and a good location and yields from 40 to 60 bu. per acre producing often two ears to a stalk. By careful breeding the kerne s have been materially lengthened without sacrificing the extreme earliness. rificing the extreme earliness. The tips are remarkably wel filled. Prices on the ear: bu. \$1.75; bu. \$3.25. Crates free. Shelled: Pk. 80 cts.; bu. \$2.75. Sample ear by mail 25 cts., postpaid.

Write for prices if wanted in larger quantities.

WIS. NO. 8 AS GROWN AT FAIRFIELD

A Typical Ear of Clark's Yellow Dent as Grown at Fairfield

Clark's Yellow Dent. Wis. No. 1. THE LARGEST EARED, DEEPEST KERNELED, YELLOW DENT CORN THAT WAS

EVER ORIGINATED IN WISCONSIN. It matures in from 110 to 115 days.
generally bearing one good ear, being well supplied with long broad leaves, which make excellent fodder. The corn always breeds very true to type, uniform in color, size, and shape of ear. Kernels are of a bright golden color, compactly set on the cob, and of unusual length for so early a corn. SEE CUT. A very noteworthy characteristic of this corn is that the ears hold their size almost the tip instead of tapering out to a long slim point, or showing a bare cob. A heavy yielder, and a good sheller, shelling from 60 to 62 pounds of corn from 70 pounds of ears. Our strain of Clark's Yellow Dent is a great improvement over that generally sold, as it has been critically bred under rules approved by Prof. Holden, the noted corn expert.

THERE IS A GREAT DIFFERENCE IN SEEDS.

It costs us much more to grow seeds here than what we could buy them for elsewhere but we know the seeds we sell when grown here. Good seeds cost more but they are alsoworth more when the resulting crop is considered.

THE PRODUCTS OF JUNG'S SEEDS ARE UNEXCELLED.

THREE QUALITY PEAS.

DWARF CHAMPION Bluc Bantann

BLUE BANTAM is no doubt the best extra early dwarf garden pea. It produces in greatest profusion large handsome pods 4 to 4½ inches in length and well filled with peas of most luscious flavor. The vines grow to about fifteen inches in height, are very vigorcus and bear an enormous crop of deep bluish-green pods. Ready to use fully as early as American Wonder while the pods are almost twice the size. Stock very limited. Pkt. 10c; ½ pt. 20c.

LORD LEISTER

THE GIANT OF THE PEA FAMILY

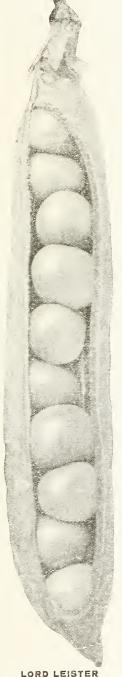

This grand variety is one of the largest podded varieties in cultivation (1.d also a sure cropper. We have grown it for four years and it has never failed to bring a good crop. Vines are strong vigorous growers attaining a height of about four feet and carry a good load of pods, some measuring six inches in length, and contain from 9 to 12 large peas. For quality it is simply superb, as the peas fairly melt in your mouth. Pkt. 10c; ½ pt. 20c; pt. 30c.

DWARF CHAMPION. The quality and productiveness of the old Champion of England is well known among all gardners, but the one great fault was the long vines. In this new variety you have the large pods, superb quality and immense productiveness of the old variety, but a stocky vine that does not require brush. The vines grow only about 18 inches tall and are very healthy, never failing to yield a heavy crop of giant-sized pods. Pkt. 10c; ½ pt. 15c; pt. 25c; qt. 40c.

SPECIAL OFFER ... For 20c we will send 1 pkt. of each of each of the above grand Peas.

For 45c we will send one half pt. of each of the above grand Peas.

For 70c we will send 1 pt. of each of the above grand Peas.

JUNG'S UNRIVALED GIANT SWEET PEAS

SEE ILLUSTRATION ON BACK COVER.

No pains have been spared to insure this grand mixture being the finest that can possibly be offered. It contains all the very largest wavy-flowered sorts including newest varieties. Flowers two inches across and produced on stems sixteen inches long, are not uncommon; often four flowers on a stem. Pkt. 10c; 3 pkts. 20c.
